Reporting Form ARF 744.0A

ABS/RBA Housing Credit Stocks, Flows and Interest Rates (Standard)

Instructions

These instructions assist completion of *Reporting Form ARF 744.0A ABS/RBA Housing Credit Stocks, Flows and Interest Rates (Standard)* (ARF 744.0A). ARF 744.0A collects information relating to the *housing* stocks, flows and interest rates of *ADIs* and *RFCs*.

Information reported in ARF 744.0A is required primarily for purposes of the *ABS* and the *RBA*. This information is required for various purposes, including policy and statistical purposes. This information may also be used by *APRA* for prudential and publication purposes.

Reporting level

ARF 744.0A must be completed by each *ADI* and *RFC* to which this Reporting Standard applies under paragraphs 4 or 5.

Reporting basis and unit of measurement

These instructions specify the reporting basis and unit of measurement that applies to each item.

For reporting purposes, unless specified otherwise, enter data as a positive number.

Counterparties

For the purposes of this form, report only finance to *households* for *housing* purposes.

For the purposes of this form, *households* may exist in either the *resident* or *non-resident* sectors.

Positions with *resident* and *non-resident households* are collected separately.

Types of finance

For the purposes of this form, finance includes *loans*.

When reporting information on the stock of outstanding finance (e.g. *credit outstanding*), only include finance that is held on-balance sheet, unless otherwise directed.

Reporting by purpose

Classify finance at the lowest level at which it is able to be identified; the purpose that the funds will be used for determines whether (and where) it is reported on this form. Where finance (identified at the lowest available level) is to be used for more than one purpose, classify that finance to its predominant purpose (based on the purpose for which the largest share of the funds will be used).

Credit outstanding & credit outstanding, net of offset account balances

Report outstanding finance under the category in which it sits as at the reporting date. For example, if a *loan* was originally classified as having a *fixed interest rate* but now has a *variable interest rate* then it must be reported as *variable interest rate* for the current *reporting period*.

Treatment of facilities

Where there is a finance *facility* with a mix of *interest rate* or repayment types, follow the instructions below unless otherwise directed.

When reporting on the *number* of *facilities*, report each *facility* once. Where *interest rate* types or repayment types are separately identified, report the number of *facilities* according to the predominant *interest rate* type or repayment type by value.

When reporting the *value* of finance, apportion across the relevant *interest rate* type and/or repayment type dimensions.

When reporting the *weighted average interest rate*, weight each *interest rate* by its corresponding balance outstanding.

Values

Unless otherwise specifically stated, information reported on this form must comply with Australian Accounting Standards.

Report monetary amounts on ARF 744.0A in Australian dollars or the Australian dollar equivalent of the foreign currency. Convert amounts denominated in foreign currency to AUD in accordance with *AASB 121 The Effects of Changes in Foreign Exchange Rates* (AASB 121).

Report values on ARF 744.0A as whole dollars.

Numbers

Report numbers on ARF 744.0A unscaled, as whole numbers for *ADIs* and *RFCs*.

Averages

Report averages on ARF 744.0A unscaled, as numbers to two decimal places.

Interest rates

ADIs and *RFCs* are required to report contractual *interest rates*. Report *interest rates* as an annualised percentage rate (on a 365 days per year basis) to two decimal places.

Refer to the *interest rates* definition for further guidance (ARS 701.0).

Cost of funds and margin

Report *cost of funds* and *margin* items as an annualised percentage rate to two decimal places.

Standard Business Reporting (SBR)

Report items on ARF 744.0A with accounting type of debit (assets). The accounting type (i.e. credit or debit) applies to all monetary items and represents the natural accounting type of the item collected.

If the *loan* is disbursed over a period of time (multiple *drawdowns*) then report the entire *loan* as being *funded* in the *reporting period* in which the funds are first made available to the borrower. Note that this differs from the standard treatment elsewhere in this form.

Item 4 collects information on the flow of new finance to *resident households* for *housing loans funded* during the *reporting period* by *loan-to-valuation ratio* at *commitment*.

Reporting basis: report item 4 during the *reporting period* or as at the end of the *reporting period* as directed.

Exclude finance to *non-residents* from item 4.

Report the number, value and *interest rate* according to the characteristics of the *loan* (or *facility*) *funded* during the *reporting period*, even where the *loan-to-valuation ratio* calculated for that *loan* (or *facility*) includes other claims on the borrower – for example, due to second mortgage status or the nomination of more than one property as security.

If the *loan* (or *facility*) is for multiple purposes, report the entire *loan* (*facility*) value according to the predominant purpose.

Include the entire value of the *commitment* in the month in which it is *funded*, not just the amount drawn in that month.

In the event of an *internal refinance*, report the new value at *commitment* using the entire new *loan* balance.

If the *loan* is disbursed over a period of time (multiple *drawdowns*) then report the entire *loan* as being *funded* in the *reporting period* in which the funds are first made available to the borrower. Note that this differs from the standard treatment elsewhere in this form.

Column 1	Report according to the property purpose (see item 4 for further details).
Column 2	Report according to the <i>loan-to-valuation ratio</i> at <i>commitment</i> (see item 4 for further details).

Item 4	<p>Report <i>housing loans to households funded</i> in the <i>reporting period</i> for each combination of property purpose and <i>loan-to-valuation ratio</i> category.</p> <p>The property purposes are:</p> <ul style="list-style-type: none"> • <i>owner-occupied</i>; and • <i>investment</i>. <p>The <i>loan-to-valuation ratio</i> categories are:</p> <ul style="list-style-type: none"> • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was less than 40 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 40 per cent and less than 60 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 60 per cent and less than 80 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 80 per cent and less than 81 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 81 per cent and less than 85 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 85 per cent and less than 90 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 90 per cent and less than 95 per cent; • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was greater than or equal to 95 per cent; • where the <i>loan</i> was <i>unsecured</i>; and • where the <i>loan-to-valuation ratio</i> at <i>commitment</i> was unknown.
Item 4.1	Report the average <i>loan-to-valuation ratio</i> at <i>commitment</i> for <i>loans funded</i> during the <i>reporting period</i> , weighted by <i>loan size</i> at <i>commitment</i> .

Item 5 collects information on the flow of new *fixed interest rate housing loans funded* during the *reporting period* and the stock of *fixed interest rate housing loans* with *credit outstanding* to *resident households* by the *residual term* of the *fixed interest rate* period.

Reporting basis: report item 5 as at the end of the *reporting period* or during the *reporting period* as directed.

If the *loan* (or *facility*) is for multiple purposes, report the entire *loan (facility)* value according to the predominant purpose.

When reporting the number of *facilities*, report each *facility* with a *fixed interest rate* component once, regardless of whether this is the predominant *interest rate* type by value. Note that this differs from the standard treatment elsewhere in this form.

Exclude finance to *non-residents* from item 5.

For item 5, report all amounts *funded* during the *reporting period*, irrespective of whether or not they were *drawn down*. Report values gross of *offset account* balances (i.e. do not subtract *offset account* balances) and of *redraw facilities* (i.e. do not subtract the amounts available in *redraw facilities*).

Column 1	Report according to the property purpose of the <i>loans</i> (see item 5 for further details).

Reporting Form ARF 744.0B

ABS/RBA Housing Credit Stocks, Flows and Interest Rates (Reduced)

Instructions

These instructions assist completion of *Reporting Form ARF 744.0B ABS/RBA Housing Credit Stocks, Flows and Interest Rates (Reduced)* (ARF 744.0B). ARF 744.0B collects information relating to the *housing* stocks, flows and interest rates of *ADIs* and *RFCs*.

Information reported in ARF 744.0B is required primarily for purposes of the *ABS* and the *RBA*. This information is required for various purposes, including policy and statistical purposes. This information may also be used by *APRA* for prudential and publication purposes.

Reporting level

ARF 744.0B must be completed by each *ADI* and *RFC* to which this Reporting Standard applies under paragraphs 4 or 5.

Reporting basis and unit of measurement

These instructions specify the reporting basis and unit of measurement that applies to each item.

For reporting purposes, unless specified otherwise, enter data as a positive number.

Counterparties

For the purposes of this form, report only finance to *households* for *housing* purposes.

For the purposes of this form, *households* may exist in either the *resident* or *non-resident* sectors.

Positions with *resident* and *non-resident households* are collected separately.

Types of finance

For the purposes of this form, finance includes *loans*.

When reporting information on the stock of outstanding finance (e.g. *credit outstanding*), only include finance that is held on-balance sheet, unless otherwise directed.

Reporting by purpose

Classify finance at the lowest level at which it is able to be identified; the purpose that the funds will be used for determines whether (and where) it is reported on this form. Where finance (identified at the lowest available level) is to be used for more than one purpose, classify that finance to its predominant purpose (based on the purpose for which the largest share of the funds will be used).

Credit outstanding & credit outstanding, net of offset account balances

Report outstanding finance under the category in which it sits as at the reporting date. For example, if a *loan* was originally classified as having a *fixed interest rate* but now has a *variable interest rate* then it must be reported as *variable interest rate* for the current *reporting period*.

Treatment of facilities

Where there is a finance *facility* with a mix of *interest rate* or repayment types, follow the instructions below unless otherwise directed.

When reporting on the *number* of *facilities*, report each *facility* once. Where *interest rate* types or repayment types are separately identified, report the number of *facilities* according to the predominant *interest rate* type or repayment type by value.

When reporting the *value* of finance, apportion across the relevant *interest rate* type and/or repayment type dimensions.

When reporting the *weighted average interest rate*, weight each *interest rate* by its corresponding balance outstanding.

Values

Unless otherwise specifically stated, information reported on this form must comply with Australian Accounting Standards.

Report monetary amounts on ARF 744.0B in Australian dollars or the Australian dollar equivalent of the foreign currency. Convert amounts denominated in foreign currency to AUD in accordance with AASB 121.

Report values on ARF 744.0B as whole dollars.

Numbers

Report numbers on ARF 744.0B unscaled, as whole numbers for *ADIs* and *RFCs*.

Averages

Report averages on ARF 744.0B unscaled, as numbers to two decimal places.

Interest rates

ADIs and *RFCs* are required to report contractual *interest rates*. Report *interest rates* as an annualised percentage rate (on a 365 days per year basis) to two decimal places.

Refer to the *interest rates* definition for further guidance (ARS 701.0).

Standard Business Reporting (SBR)

Report items on ARF 744.0B with accounting type of debit (assets). The accounting type (i.e. credit or debit) applies to all monetary items and represents the natural accounting type of the item collected.

Specific instructions

Terms highlighted in *bold italics* are defined in ARS 701.0.

All derived fields in the form are shaded in grey are explained in words as a mathematical expression in these instructions.

If the *loan* (or *facility*) is for multiple purposes, report the entire *loan* (*facility*) value according to the predominant purpose.

Include the entire value of the *commitment* in the month in which it is *funded*, not just the amount drawn in that month.

In the event of an *internal refinance*, report the new value at *commitment* using the entire new *loan* balance.

If the *loan* is disbursed over a period of time (multiple *drawdowns*) then report the entire *loan* as being *funded* in the *reporting period* in which the funds are first made available to the borrower. Note that this differs from the standard treatment elsewhere in this form.

If the *loan* (or *facility*) is for multiple purposes, report the entire *loan (facility)* value according to the predominant purpose.

When reporting the number of *facilities*, report each *facility* with a *fixed interest rate* component once, regardless of whether this is the predominant *interest rate* type by value. Note that this differs from the standard treatment elsewhere in this form.

Finance to *non-residents* is excluded from item 5.

For item 5, report all amounts *funded* during the *reporting period*, irrespective of whether or not they were *drawn down*.
