

Draft Reporting Standard LOLRS 800.3

Facility Business Data: Public and Product Liability and Professional Indemnity Insurance

Objective of this reporting standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to certain facility business underwritten by a Lloyd's underwriter where the risk assumed by the Lloyd's underwriter relates to public liability, product liability and professional indemnity insurance.

It includes *Reporting Form LOLRF 800.3 Facility Business Data: Public and Product Liability and Professional Indemnity Insurance* and the associated instructions.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected by *Reporting Form LOLRF 800.3 Facility Business Data: Public and Product Liability and Professional Indemnity Insurance* (LOLRF 800.3) is used by APRA for the purpose of prudential supervision and publication, including publication in the National Claims and Policies Database (NCPD).

Application

3. This Reporting Standard applies to Lloyd's.

Commencement

4. This Reporting Standard applies for reporting periods ending on or after 31 December 2020.

Information required

5. Lloyd's must provide APRA with the information required by LOLRF 800.3 for each reporting period and each reportable facility business in respect of which a Lloyd's underwriter was on risk at any time during the reporting period.

Reporting periods and due dates

6. Subject to paragraph 7 of this Reporting Standard, Lloyd's must provide the information required by this Reporting Standard in respect of each calendar half-year (i.e. the periods ending 30 June and 31 December each year).
7. APRA may, by notice in writing, change the reporting periods, or specify reporting periods, to require Lloyd's to provide the information required by this Reporting Standard more frequently, or less frequently, or in respect of reporting periods based upon a Lloyd's underwriter's own accounting financial year for that part of the information required by this Reporting Standard relating to that underwriter, having regard to:
 - (a) the particular circumstances of a Lloyd's underwriter; and
 - (b) the extent to which the information is required for the purposes of the prudential supervision of a Lloyd's underwriter.
8. The information required by this Reporting Standard must be provided to APRA by no later than four months after the end of the reporting period.
9. APRA may grant Lloyd's an extension of a due date in writing, in which case the new due date for the provision of the information will be the date on the notice of extension.

Method of submission

10. Unless a method is notified by APRA, in writing, prior to submissions, the information required by this Reporting Standard must be rendered in comma separated values (CSV) format in accordance with the instructions in LOLRF 800.3, and must be provided electronically through the web site www.ncpd.apra.gov.au, by logging on using the relevant customer identification number and password provided by Fujitsu Australia (as agent of APRA), and following the instructions on that web site.

Quality control

11. The information provided by Lloyd's under this Reporting Standard must be subject to systems, processes and controls developed by Lloyd's for the internal review and authorisation of that information.

Note: Lloyd's General Representative in Australia must ensure that an appropriate set of policies and procedures is in place for the authorisation of data provided to APRA.

Authorisation

12. Fujitsu Australia (as agent of APRA) will provide Lloyd's with a customer identification number. If Lloyd's proposes to submit information required by this Reporting Standard using the method in paragraph 10 (i.e. via the website),

Lloyd's must apply for a password by viewing the web page referred to in paragraph 10, quoting Lloyd's customer identification number and following the instructions for applying for a password on that page. Fujitsu Australia will advise Lloyd's General Representative in Australia of the password for Lloyd's. When information is provided using the method in paragraph 10, Lloyd's will be required to quote its customer identification number and password. Upon successful validation of the customer identification and password a secure session between Lloyd's and Fujitsu Australia will be created and information will be encrypted before transmission.

13. Despite paragraph 12, or where APRA has under paragraph 10 notified an alternate method of submission, APRA may also determine in writing that:
 - (a) a specified person (who need not be Lloyd's General Representative in Australia or agent);
 - (b) a person holding a specified position (who need not be Lloyd's General Representative in Australia or agent); or
 - (c) a person authorised by Lloyd's to use Lloyd's customer identification number and password,

may, or must, authorise (in a manner specified) information provided by Lloyd's under this Reporting Standard.

Minor alterations to forms and instructions

14. APRA may:
 - (a) make minor variations to LOLRF 800.3 (either generally, or in relation to a class of Lloyd's underwriters, or in relation to one or more named Lloyd's underwriters) to correct technical, programming or logical errors, inconsistencies or anomalies;
 - (b) vary, omit or substitute (either generally, or in relation to a class of Lloyd's underwriters, or in relation to one or more named Lloyd's underwriters) an occupation code or description in Appendix C to LOLRF 800.3, if APRA forms the view that the existing code or description is inappropriate having regard to the circumstances or business of Lloyd's and any other relevant considerations; or
 - (c) vary, omit or substitute (either generally, or in relation to a class of Lloyd's underwriters, or in relation to one or more named Lloyd's underwriters) a specification in a Table in LOLRF 800.3, if APRA forms the view that the specification is inappropriate having regard to the circumstances or business of Lloyd's underwriters and any other relevant considerations.
15. If APRA makes such a variation it must notify Lloyd's in writing.

Transition

16. An insurer must report under the old reporting standard in respect of a transitional reporting period. For these purposes:

old reporting standard means the reporting standard revoked by the determination that makes this Reporting Standard (being the reporting standard that this Reporting Standard replaces); and

transitional reporting period means a reporting period under the old reporting standard:

- (a) that ended before the date of revocation of the old reporting standard; and
- (b) in relation to which the insurer was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

Note: For the avoidance of doubt, if an insurer was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting standard, the insurer is still required to provide any overdue reporting documents in accordance with the old reporting standard:

Interpretation

17. In this Reporting Standard:

agent of APRA means a person appointed under section 47 of the *Australian Prudential Regulation Authority Act 1998* to receive data on behalf of APRA.

APRA means the Australian Prudential Regulation Authority established under the *Australian Prudential Regulation Authority Act 1998*.

facility business means business that is closed by bordereau and for which the relevant Lloyd's underwriter does not receive individual policy or claims data from the facility manager, and includes business undertaken through an underwriting pool or joint venture arrangement.

Fujitsu Australia means Fujitsu Australia Limited ABN 19 001 011 427.

Lloyd's has the meaning in the *Insurance Act 1973*.

Lloyd's General Representative in Australia means the employee of Lloyd's or Lloyd's Australia Ltd who holds the position of Lloyd's General Representative in Australia, or performs the functions and duties described by that title.

Lloyd's underwriter has the meaning in the *Insurance Act 1973*.

product liability insurance includes policies that provide for compensation for loss and or injury caused by, or as a result of, the use of goods.

professional indemnity insurance includes:

- (a) insurance that provides cover for a professional for actions taken against that professional in tort, contract or under statute law in respect of advice or services provided as part of their professional practice, including cover in respect of damages and legal expenses;
- (b) directors' and officers' liability insurance and legal expense insurance; and
- (c) medical indemnity insurance.

public liability insurance includes:

- (a) insurance covering legal liability to the public in respect of bodily injury or property damage arising out of the operation of the insured's business; and
- (b) insurance in respect of environmental clean-up costs resulting from pollution where not covered by Fire and Industrial Special Risk policies.

reportable facility business means facility business underwritten by a Lloyd's underwriter on or after 1 January 2003 under which the risk, or a risk, assumed by the Lloyd's underwriter relates to product liability, professional indemnity or public liability insurance, not being a risk that relates to:

- (a) reinsurance or retrocession cover;
 - (b) marine insurance;
 - (c) domestic householder's or owner's insurance, or tenant's liability insurance, sold in conjunction with a building or contents policy; or
 - (d) an event that could neither occur in Australia nor in relation to an insured resident of Australia.
18. Unless the contrary intention appears, any reference to an Act is a reference to the instrument as in force or existing from time to time
19. Where this Reporting Standard provides for APRA to exercise a power or discretion, this power or discretion is to be exercised in writing.

Reporting Form LOLRF 800.3

Facility Business Data: Public and Product Liability and Professional Indemnity Insurance

Instruction Guide

These instructions have been prepared for the purpose of defining the facility business information required to be submitted by Lloyd's in respect of public and product liability and professional indemnity insurance. This information will contribute to a National Claims and Policy Database (NCPD) in respect of these classes of insurance. The intention is to create a database that holds information in respect of claims and policies for public and product liability and professional indemnity on a national basis.

Details of requirements in relation to reporting periods, method of submission and authorisation are set out in the Reporting Standard. The data submitted by Lloyd's will be validated by APRA at each reporting period. The data validation to be performed is outlined in Appendix A.

Record Layouts and Field Specifications

Facility Business Data Specifications

Facility Data	Data Item	Facility Business	Field type
1*	Insurer Code	M	6a
2*	Month of end of Reporting periods	M	8n
3*	Facility Identifier	M	30a/n
4	Industry/Occupation Code	O	6a or 4n
5	Class of Business	O	2a
6*	Run-off Indicator	O	1a
7	Insurer's Percentage of Facility	M	6n
8	Number of Policies	O	6n
9	Premium Received for Reporting periods	M	12n
10	Number of Claims	O	6n
11	Gross Payments Made for Reporting periods	M	12n

Date must be DDMMYYYY, no delimiter.

Key:

M – mandatory field on all records from 1 July 2004.

O – optional field.

a – alpha.

n – numeric.

* Fields so indicated, as a combination, must be unique for each reporting period.

Facility Business Record Data Field Definitions

Where there is a mid-term market change, the facility reference may be repeated showing a changed insurer percentage.

1. Insurer Code

This will be provided by APRA when advised of the method of delivery of the data.

2. Month of end of Reporting periods

The data will relate to a six month period. Code the last day of this period in this field as DDMMYYYY, e.g. insert code 30062003 for data relating to the six months ending 30 June 2003.

3. Facility Identifier

A unique identifier for each facility where the insurer has received in excess of \$100,000 in premium or made gross payments in excess of \$100,000, for each respective six month period.

Provide a separate record for claims data and policies data for each facility.

Facilities where the insurer has received less than \$100,000 in premium or made gross payments of less than \$100,000 in the six month period are to be included "Other".

4. Industry/Occupation Code

For Public and Products Liability, EPL and D&O risks, use the principal classification of the business from the latest edition of Catalogue Number 1292.0 Australian and New Zealand Standard Industrial Classification (ANZSIC), published by the Australian Bureau of Statistics and available on their web site. Provide data at the 4digit ANZSIC code level. Any reports or publications will be aggregated to the 2 digit level ANZSIC.

Residential strata owners' liability is collected under ANZSIC classification 7711 - Residential Property Operators, whereas for Commercial Property Operators it is either 7712 or the occupation code that is most closely aligned with the tenancy of the strata.

For Professional Risks, use the codes provided in Attachment B.

Occupation code "OMULTI" should only be used for Facility Business data where a facility covers multiple occupation codes, no single code can be regarded as the principal occupation code and hence it is not possible or appropriate to use one of the more specific occupation codes.

Occupation code "OMULTI" and code "000000" (for ANZIIC codes) should only be used for Facility Business data where a facility covers multiple industry or occupation codes, no single code can be regarded as the principal industry or occupation code and hence it is not possible or appropriate to use one of the more specific codes.

Where this information is not available, enter a hyphen (“-”).

5. Class of Business

- PL = Public & Product
- PI = Professional Risk

Where this information is not available, enter a hyphen (“-”).

6. Runoff Indicator

- Y = Yes
- N = No

Where this information is not available, enter a hyphen (“-”).

7. Insurer’s Percentage of Facility

Lloyd’s proportion of the facility, to 2 decimal places (e.g. 66.66 for 66.66%).

Blank on “Other” facilities records.

8. Number of Policies

The total numbers of policies covered by this facility, if available or else provide a “blank”.

9. Premium Received for Reporting periods

Lloyd’s share of the gross premium from this facility during the half year net of GST in whole dollars, no decimal point and converted to A\$ using end of processing month rates of exchange. Exclude all statutory charges (FSL, GST & SD) but include others costs (commissions).

10. Number of Claims

The total numbers of claims covered by this facility for which payments have been reported in item 9 below, if available or else provide a “blank”.

11. Gross Payments Made in Reporting periods

Lloyd’s share of payments made for this facility since the last reporting period, net of GST in whole dollars, no decimal point and converted to A\$ using end of processing month rates of exchange. Includes payments made to claimant and to third-party service providers (medical, legal, investigation) that are attributed to the claim.

Appendix A: Data Validation

The facility business data submitted by Lloyd's will be validated by APRA as follows.

For facility business data, the total of all premiums received and the total of gross payments made will be deducted from earned premium and gross payment data submitted in GRF 440 (see below).

- a) Earned premium submitted in information provided by Lloyd's under Lloyd's Security Trust Fund Determination No 1, less the premium received for all facilities, is expected to reconcile to within 5% of the total of the earned premium shown in field 15b on the individual policy records submitted by insurers or as calculated by APRA from the gross annualised premium (field 15a). APRA will expect Lloyd's to explain the source of any greater discrepancy.
- b) Gross claim payments submitted in information provided by Lloyd's under Lloyd's Security Trust Fund Determination No 1, less the gross payments received for all facilities, is expected to reconcile to within 5% of the gross payments for each accident year calculated from the individual claim records submitted. Discrepancies in the most recent accident years will be compared with the amount of payments made for all facilities.

While it is appreciated that more extensive reconciliation could be attempted, this could require significant changes to the existing reporting requirements to APRA or the submission of other information (such as management accounts) from insurers that would not be in standard formats.

APRA will expect that where Lloyd's needs to demonstrate the reason for a discrepancy between the individual records submitted to the database and its aggregate data reported to APRA in the above forms, Lloyd's will share such additional reports with APRA as required.
