

Reporting Standard GRS 320.0

Liability Roll Forwards

Objective of this Reporting Standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to a general insurer's reconciliations of insurance contract liabilities required by *AASB 17 Insurance Contracts*.

It includes associated specific instructions and must be read in conjunction with *Reporting Standard GRS 001 Reporting Requirements* (GRS 001), including the general instruction guide.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. The information reported to APRA under this Reporting Standard is used by APRA for the purpose of prudential supervision including assessing compliance with the capital standards.

Application and commencement

3. This Reporting Standard applies to all general insurers authorised under the *Insurance Act 1973* (insurers). This Reporting Standard applies for reporting periods ending on or after 1 July 2023.

Information required

4. An insurer must provide APRA with the information required by this Reporting Standard for each reporting period.

Method of submission

5. The information required by this Reporting Standard must be given to APRA:
 - (a) in electronic format using an electronic method available on APRA's website; or
 - (b) by a method notified by APRA prior to submission.

Reporting periods and due dates

6. Subject to paragraph 7, an insurer must provide the information required by this Reporting Standard:
 - (a) in respect of each half-year based on the financial year of the insurer; and
 - (b) in respect of each financial year of the insurer.

Note: The annual information required from an insurer by paragraphs 4, 5 and 6(b), together with certain annual information required by other reporting standards, will form part of the insurer's yearly statutory accounts within the meaning of section 3 of the Insurance Act. This means that the information must be audited in accordance with paragraph 49J(1)(a) of the Insurance Act. Under subsection 49J(3), the principal auditor of the insurer must give the insurer a certificate relating to the yearly statutory accounts, and that certificate must contain statements of the auditor's opinions on the matters required by the prudential standards to be dealt with in the certificate.

7. If, having regard to the particular circumstances of an insurer, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by subparagraph 6(a) or 6(b), APRA may, by notice in writing, change the reporting periods, or specify reporting periods, for the particular insurer.
8. The information required by this Reporting Standard in respect of an insurer must be provided to APRA:
 - (a) in the case of half-yearly information, within 20 business days after the end of the reporting period to which the information relates;
 - (b) in the case of annual information, within three months after the end of the reporting period to which the information relates; or
 - (c) in the case of information provided in accordance with paragraph 7, within the time specified by notice in writing.

Note: Paragraph 49L(1)(a) of the Insurance Act provides that the auditor's certificate required under subsection 49J(3) of that Act must be lodged with APRA in accordance with the prudential standards. The prudential standards provide that the certificate must be submitted to APRA together with the yearly statutory accounts. Accordingly, the auditor's certificate relating to the annual information referred to in subparagraph 6(b) must be provided to APRA by the time specified in GRS 001 (unless an extension of time is granted under GRS 001).

9. APRA may, in writing, grant an insurer an extension of a due date in paragraph 8, in which case the new due date will be the date on the notice of extension.

Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, an insurer is nonetheless required to submit the information required no later than the due date.

Quality control

10. The information provided by an insurer under this Reporting Standard must be the product of systems, processes and controls that have been reviewed and tested by the Appointed Auditor of the insurer. This will require the Appointed Auditor to review and

test the insurer's systems, processes and controls designed to enable the insurer to report reliable financial information to APRA. This review and testing must be done on:

- (a) an annual basis or more frequently if necessary to enable the Appointed Auditor to form an opinion on the reliability and accuracy of data; and
 - (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard GPS 310 Audit and Related Matters*.
11. All information provided by an insurer under this Reporting Standard must be subject to systems, processes and controls developed by the insurer for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the insurer to ensure that an appropriate set of policies and procedures for the authorisation of data submitted to APRA is in place.

Authorisation

12. When an officer, or agent, of an insurer provides the information required by this Reporting Standard using an electronic format the officer, or agent, must digitally sign the relevant information using a digital certificate acceptable to APRA.
13. If the information required by this Reporting Standard is provided by an agent who submits the information on the insurer's behalf, the insurer must:
- (a) obtain from the agent a copy of the completed information provided to APRA; and
 - (b) retain the completed copy.
14. An officer, or agent, of an insurer who submits the information under this Reporting Standard for, or on behalf of, the insurer must be authorised by either:
- (a) the Principal Executive Officer of the insurer; or
 - (b) the Chief Financial Officer of the insurer.

Variations

15. APRA may, by written notice to the insurer, vary the reporting requirements of this Reporting Standard in relation to that insurer.

References to Australian Accounting Standards

Each item reported under this Reporting Standard aligns with the Accounting Standards made by the Australian Accounting Standards Board (AASB). The applicable AASB references are specified with each item. AASB reference provides a written description of the accounting meaning of an IFRS Taxonomy element.

IFRS taxonomy element reference

Each IFRS taxonomy element contains at least one cross-reference to an AASB Standard (that incorporates IFRS 17 Standards as issued and amended by the International Accounting Standards Board (IASB)) and has a reference type that can be used to identify the source of that element. The IFRS Taxonomy uses the following element reference types:

- (a) disclosure—an element of this type depicts a disclosure requirement of an IFRS/AASB Standard;
- (b) example—an element of this type represents an example provided in an IFRS/AASB Standard or its accompanying materials; and
- (c) common practice—an element of this type reflects common reporting practice within IFRS/AASB financial statements they not specifically mentioned in IFRS/AASB Standards or their accompanying materials, but are consistent with IFRS/AASB Standards. They have been found to be frequently disclosed across a range of companies and accounting jurisdictions.
