

Reporting Standard ARS 223.0

Residential Mortgage Lending

Objective of this Reporting Standard

This reporting standard outlines the requirements for the provision of information to APRA relating to an authorised deposit-taking institution's residential mortgage lending.

It includes *Reporting Form ARF 223.0 Residential Mortgage Lending* and the associated specific instructions.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected by *Reporting Form ARF 223.0 Residential Mortgage Lending* (ARF 223.0) is used by APRA for the purposes of prudential supervision. It may also be used by the Reserve Bank of Australia.

Application and commencement

3. This Reporting Standard applies to all authorised deposit-taking institutions (ADI) with the exception of:
 - (a) providers of purchased payment facilities (PPFs); and
 - (b) subject to paragraph 4 of this Reporting Standard, foreign ADIs.

This Reporting Standard may also apply to the authorised non-operating holding company (NOHC) of an ADI (refer to paragraph 6).

4. If APRA considers that a foreign ADI undertakes material residential mortgage lending in Australia, APRA may, by notice, apply this Reporting Standard to that ADI having regard to:

- (a) the particular circumstances of the ADI; and
- (b) the extent to which information is required for the purposes of the prudential supervision of the ADI,

and such a notice may specify that some or all of the requirements in this Reporting Standard apply to that ADI.

- 5. APRA may, by notice, vary or revoke a notice given under this paragraph 4 having regard to:
 - (a) the particular circumstances of the ADI; and
 - (b) the extent to which information is required for the purposes of the prudential supervision of the ADI.
- 6. This Reporting Standard applies for reporting periods ending on or after 31 January 2022.

Information required

- 7. If an ADI to which this Reporting Standard applies is part of a Level 2 group, the ADI must provide APRA with the information required by ARF 223.0 at Level 2 for each reporting period unless the ADI is a subsidiary of an authorised NOHC. If the ADI is a subsidiary of an authorised NOHC, the ADI's immediate parent NOHC must provide APRA with the information required by ARF 223.0, for each reporting period. In doing so, the immediate parent NOHC must comply with this Reporting Standard as if it were the relevant ADI.
- 8. If an ADI to which this Reporting Standard applies is not part of a Level 2 group, the ADI must provide APRA with the information required by ARF 223.0 at Level 1.

Method of submission

- 9. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a method notified by APRA prior to submission.

Reporting periods and due dates

- 10. Subject to paragraph 12, an ADI to which this Reporting Standard applies must provide the information required by this Reporting Standard in respect of each quarter ending 30 September, 31 December, 31 March and 30 June.
- 11. The information required by this Reporting Standard must be provided to APRA within 35 calendar days after the end of the reporting period to which the information relates¹.

¹ For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, an ADI is nonetheless required to submit the information required no later than the due date.

12. APRA may, by notice, change the reporting periods, or specified reporting periods, for a particular ADI, to require it to provide the information required by this Reporting Standard more frequently, or less frequently, having regard to:
 - (a) the particular circumstances of the ADI; and
 - (b) the extent to which the information is required for the purposes of the prudential supervision of the ADI.
13. APRA may grant an ADI an extension of a due date in writing, in which case the new due date for the provision of the information will be the due date specified on the notice of extension.

Quality control

14. All information provided by an ADI under this Reporting Standard must be the product of processes and controls that have been reviewed and tested by the external auditor of the ADI as set out in *Prudential Standard APS 310 Audit and Related Matters*. Relevant standards and guidance statements issued by the Auditing and Assurance Standards Board provide information on the scope and nature of the review and testing required from external auditors. This review and testing must be done on an annual basis or more frequently if necessary to enable the external auditor to form an opinion on the accuracy and reliability of the information.
15. All information provided by an ADI under this Reporting Standard must be subject to processes and controls developed by the ADI for the internal review and authorisation of that information. These systems, processes and controls are to assure the completeness and reliability of the information provided.

Authorisation

16. When an officer or agent of an ADI provides the information required by this Reporting Standard using the method notified by APRA, it will be necessary for the officer or agent to digitally sign the relevant information using a digital certificate acceptable to APRA

Minor alterations to forms and instructions

17. APRA may make minor variations to:
 - (a) a form that is part of this reporting standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or
 - (b) the instructions to a form, to clarify their application to the formwithout changing any substantive requirement in the form or instructions.
18. If APRA makes such a variation it must notify each ADI that is required to report under this reporting standard.

2. Where an ADI (or a member of its Level 2 consolidated group) participates in a securitisation that does not meet APRA's operational requirements for regulatory capital relief under APS 120, or the ADI undertakes a funding-only securitisation or synthetic securitisation (per APS 120), such assets are to be reported in ARF 223.0.

<i>Revolving credit</i>	Lending facilities that the borrower may repeatedly draw down, in part or in full up to an authorised credit limit, and repay any credit drawn, in part or in full, on multiple occasions without the facility being cancelled. Repayments (other than of charges and interest) reduce the borrowings, thereby increasing the amount of unused credit available. Include facilities with a fixed term that meet the above criteria. Include <i>reverse mortgages</i> .
<i>Serviceability verification waivers</i>	Loans with material waivers to serviceability verification requirements, which may impact the reliability of the serviceability assessment.
<i>Temporary modifications due to financial difficulty</i>	Loans where the ADI has made temporary modifications to the conditions to the loan, for example, temporary concessions to repayments, due to the financial difficulty of the borrower.
<i>Term loans</i>	Loans extended for a fixed period, with a maturity date by which the loan must be repaid. Repayments over the fixed period reduce the <i>credit outstanding</i> and do not make further finance available. Include redraw facilities attached to fixed-term loans as part of the term loan. Exclude <i>reverse mortgages</i> , report <i>reverse mortgages</i> as <i>revolving credits</i> .
<i>Third-party originated</i>	Loans where the ADI's primary contact with the borrower at origination is through a mortgage broker or another party (including a related body corporate) that is not within the regulated ADI itself. This includes where this third party accepts or completes applications, and is regardless of whether the third party has the ability to approve transactions or not.
