

Memorandum of Understanding concerning Mutual Co-operation in Banking and Insurance Supervision

between

The Australian Prudential Regulation Authority (APRA)

and

**The Indonesia Financial Services Authority (Otoritas Jasa Keuangan or
OJK)**

(Individually “the Authority”, together “the Authorities”)

June, 2022

Background

1. This Memorandum of Understanding (MOU) sets out a framework for co-operation between the Authorities in areas of common interest where co-operation is essential for the effective and efficient performance of their respective financial regulation functions.
2. This MOU is a statement of intent and does not create any legally binding obligations on the Authorities.
3. This MOU does not affect the ability of the Authorities to otherwise request:
 - a. documents, information or assistance from each other; or
 - b. documents, information or evidence from individuals, under relevant laws in their respective jurisdictions, such as, in Australia, section 6 of the Mutual Assistance in Business Regulation Act 1992.
4. For the purpose of this MOU:

Cross-border Establishment means a branch, subsidiary, representative office or any Supervised Entity within one jurisdiction which falls under the consolidated or group-wide supervision (or prospective supervision) responsibility of the other jurisdiction, including where the Authorities are both Host-country Authorities.

Host-country Authority means the Authority which supervises a branch, representative office, subsidiary or sub-group of a Supervised Entity (the parent entity) which is supervised in another country.

Home-country Authority means the Authority which supervises the parent entity.

Supervised Entity means a banking or insurance entity or group that falls within the supervisory remit of the Authorities, as identified by their respective legislation, including their cross-border establishments.

The Authorities

5. APRA is the national prudential regulator in Australia, established on 1 July 1998 under the *Australian Prudential Regulation Authority Act 1998*. APRA administers legislation providing for the supervision of authorised deposit-taking institutions (banks, building societies and credit unions), insurance/reinsurance companies, friendly societies and superannuation funds authorised to operate in Australia.
6. OJK is the supervisory institution that regulates and supervises financial services institutions on integrated basis throughout all of the financial services sector activities in Indonesia as stipulated under the Act No. 21 of 2011 of the Republic of Indonesia concerning Otoritas Jasa Keuangan.

General Principles

7. The Authorities recognise that the arrangement of this MOU is to establish cooperation on the basis of mutual assistance and the principle of reciprocity, to the extent permitted by applicable laws and regulations. For that purpose, the Authorities will use their best endeavours to meet the terms agreed in this MOU.
8. The Authorities expect, within the framework of this MOU, to provide each other with all reasonable assistance to promote the safe and sound functioning of entities regulated by the Authorities, subject to domestic laws and the Authorities' overall policies.

Scope of Cooperation

9. To the extent permitted by applicable laws and regulations, this MOU sets out the cooperation between the Authorities in the following areas:
 - a. Sharing of Information;
 - b. Cross-Border Establishment;
 - c. Ongoing Supervision;
 - d. Crisis Management; and
 - e. Technical Assistance and Capacity Building.

Sharing of Information

10. The Authorities expect that requests for assistance or information will be made in writing by staff members of the Authorities whom the Authorities nominate from time to time as their respective contact officers for the purpose of sharing information under this MOU. Requests for assistance or information will be addressed to the Authorities' contact persons named in Annexure A. However, where the Authorities perceive a need for expedited action, the Authorities may make a request for information in any form, but should subsequently confirm the request in writing. The Authorities will endeavour to provide information to each other in a timely and reasonable manner.
11. The Authorities recognise that the provision of information may be denied on the grounds of national security or when disclosure would interfere with an ongoing investigation and/or examination. Where a request for information is denied, the Authority that made the request expects that it will be provided with the reasons for not providing the information. Each Authority may impose conditions on the use of information provided to the other Authority.
12. The Authorities expect to respond to each other's requests for information on their respective national regulatory systems and inform each other about major changes, including those that have a significant bearing on the activities of Cross-border Establishments.

Cross-Border Establishment

13. The Host-country Authority is expected to notify the Home-country Authority without delay of applications for approval to establish a Cross-border Establishment or to make an acquisition in the jurisdiction of the Host-country Authority.
14. Upon request by the Host-country Authority, the Home-country Authority is expected to inform the Host-country Authority whether the applicant entity is in substantial compliance with the laws and regulations administered by the Home-country Authority and whether the entity may be expected to manage the Cross-border Establishment in an orderly manner, given the Home-country Authority's knowledge of the entity's administrative structure and internal controls.
15. Upon request, the Home-country Authority is expected to inform the Host-country Authority about the nature of its regulatory system and the extent to which it will conduct consolidated or group-wide supervision over the applicant entity. Similarly, the Host-country Authority is expected to indicate the scope of its supervision and indicate any specific features that might give rise to the need for special arrangements.
16. To the extent permitted by law, the Authorities expect to share available information on the fitness and propriety of prospective directors, managers and relevant shareholders of a Cross-border Establishment.

17. The Home-country Authority does not expect that it will be prevented from conducting on-site inspections of Cross-border Establishments.
19. The Home-country Authority is expected to notify the Host-country Authority of plans to inspect or examine a Cross-border Establishment or to appoint a third party to conduct an examination on its behalf, and to indicate the purposes and scope of the inspection or examination. The Host-country Authority reserves the right to accompany the Home-country Authority on such an inspection or attend any examination. The Authorities expect to keep each other informed on the results of any inspections in a timely manner. If the parent entity has been inspected along with its Cross-border Establishment in the other country, the Home-country Authority is expected to provide the Host-country Authority with a summary report on material findings that are relevant to the Cross-border Establishment.

Ongoing Supervision

20. The Authorities intend to provide relevant information to each other with regard to their involvement in the supervision of the Supervised Entities, in a timely and reasonable manner. The Authorities expect to inform each other of material administrative penalties imposed, or other formal enforcement action taken against any Cross-border Establishment, its management or, in cases of systemic impact, its shareholders. The Authorities expect that they will give prior notification of such action to each other, as far as it is practicable and subject to applicable laws.
21. The Authorities intend to co-operate closely through the sharing of information when either Authority identifies suspected financial crime activities in supervised entities and transactions. Financial crimes include money laundering, unauthorised banking, investment or insurance business and all other breaches of the laws governing financial institutions and insurance entities that are regulated by either Authority.

Crisis Management

22. In the event that a Cross-border Establishment is affected by a crisis:
 - a. the Authorities will consider possible issues and barriers that may arise in cross-border cooperation and any potential solutions;
 - b. to the extent permitted by their respective applicable laws and regulations, the Authorities intend to exchange information on their resolution regimes and crisis preparations; and
 - c. where appropriate, due to the Cross-border Establishment's risk profile and systemic importance, and to the extent permitted, the Authorities intend to engage as appropriate in relation to resolution planning.

Technical Assistance & Capacity Building

23. The Authorities may, where practical, promote their cooperation through visits to the other Authority's jurisdiction for informational purposes or participation in each other's training programs. Technical assistance on examination and supervision techniques and capacity building may be provided upon request by the requesting Authority, subject to the availability and capacity of resources of the Authority to which the request has been made.

Confidentiality

24. The Authorities will use their best endeavours to preserve the confidentiality of the information received under this MOU, and will not disclose such information to any third party without the prior consent of the other Authority. In this regard, the Authorities confirm that the staff members or employees of both Authorities are bound to hold confidential all information obtained in the course of their duties. Any confidential information received from either of the Authorities is to be used exclusively for lawful supervisory purposes.
25. An Authority may disclose information received from the other Authority under this MOU to a third party in the following circumstances:
 - a. where the Authority is legally compelled to do so, for example to a Court or Royal Commission;
 - b. where the Authority receives a legally enforceable demand, for example under Freedom of Information laws; and,
 - c. in other circumstances permitted by law.
26. When an Authority is legally compelled to disclose information provided under this MOU to a third party, the Authority which is under compulsion is expected to promptly notify the other Authority, indicating what information it is compelled to disclose and the circumstances surrounding its release. The Authorities expect each other to use their best endeavours to preserve the confidentiality of the information to the extent permitted by law, if requested to do so.
27. Where an Authority wishes to disclose information received under this MOU to a third party, but is not compelled to do so, the Authority is expected to notify the other Authority to obtain its consent. It will not disclose the information if consent is refused. Where consent is obtained, the Authority disclosing the information will impose on the third party any conditions which have been made by the other Authority concerning the use of that information. In any event, as far as possible, the party disclosing the information will impose a condition on the third party that it keep the information confidential, and that it will not further disclose the information without first obtaining consent.
28. The confidentiality obligations of the Authorities under this MOU shall survive any termination of this MOU and shall continue to apply to all information exchanged under this MOU.
29. The Authorities expect each other to mark all documents provided under this MOU, "Confidential – Provided under Memorandum of Understanding between APRA AND OJK".

Miscellaneous

30. The Authorities expect to conduct meetings as often as appropriate to discuss issues concerning Supervised Entities that maintain Cross-border Establishments and to review the effectiveness of cooperation arrangements.
Unless otherwise notified, contact will be between the principal contact persons set out in Annexure A.
31. Each Authority expects to bear its own expenses incurred in the implementation of this MOU. If it appears that an Authority is likely to incur substantial costs in responding to a particular request for information, the Authority may approach the other Authority with a view to negotiating a cost-sharing arrangement in relation to the provision of that information.

32. This MOU shall be effective from the date of its signing. It shall continue in effect for a period of five years and may be extended for such further period as may be agreed in writing by the Authorities. If an Authority wishes to terminate this MOU it will notify the other Authority of its intention by written notice. This MOU then shall stay in effect until the expiration of 30 days after either Authority gives written notice to its counterpart indicating its intention to termination this MOU. Where such notice of termination is given, this MOU will continue to have effect with respect to all existing requests for assistance made before the notice of termination is received.
35. Any differences or disagreements regarding the interpretation, implementation or application of the provisions of this MOU will be resolved amicably by mutual consultations between the Authorities, in the spirit of friendship and mutual understanding.
