Chapter 1 - Getting Started with APRA Connect

1.1 Using this guide

This guide provides comprehensive information to assist users accessing, navigating and using APRA Connect. The guide should be used in conjunction with [taxonomy artefacts](#) published on the APRA website when preparing and submitting data to APRA.

1.2 What is APRA Connect

APRA Connect is the data collection solution for reporting entities to lodge entity information and data with APRA, and will be used in parallel with Direct to APRA (D2A).

Any new data collections will be made available through APRA Connect. As existing collections are modified, they will be transitioned from D2A to APRA Connect.

An APRA Connect [test environment](#) is also available, which enables exploration of the system and engagement on new collection design.

1.3 Technical Specifications

Please refer to the APRA Connect page on the APRA website for all APRA Connect [technical specifications](#).

1.3.1 Information Security

Please refer to the APRA Connect page on the APRA website for details of APRA Connect [data security](#).

1.4 Authentication

1.4.1 Digital Identity, myGovID & RAM

APRA Connect is integrated with the Australian Government's [Digital Identity system](#):

- using [myGovID](#) as identity provider; and
- the [Relationship Authorisation Manager](#) (RAM) authentication solution.

All users need to use myGovID to establish their digital identity and be authorised by their organisation to access APRA services on its behalf using RAM.

Service	Description
Digital Identity	Australia's Digital Identity system is made up of agencies, private sector businesses and systems, working together to deliver a secure way to prove someone's identity online to access services.
myGovID	myGovID is the government's identity provider within the Digital Identity system. It is your personal digital identifier and enables you to prove your identity when using participating government services online. It should be set up using a personal email address. You should not use a shared or business email.
RAM	To access APRA Connect, you must be authorised in RAM to act on behalf of an organisation (defined by their ABN). The email address used to authorise you in RAM can be different from the email address used for your myGovID digital identity. Your work email should be used, as this is the address that will be used for APRA Connect notifications.

Note: A user only needs one identity and authorisation to access both APRA Connect environments.

APRA services work with both Basic and Standard myGovID identity strengths. Entities are responsible for granting authorisation to users through RAM and therefore responsible for ensuring that any authorised user meets the entity's own governance and security requirements.

Entities should be aware that a Standard identity strength is required in order to grant authorisations through RAM.

Please refer to the Australian Government's published materials to find out more about [Digital Identity](#), [myGovID](#), and [RAM](#).

Service Providers

Service Providers must be authorised in RAM by the entity on whose behalf they submit, i.e. their authorisation must be associated with the entity's ABN, not their own.

1.4.2 New users

When a user first navigates to an [APRA Connect environment](#) (i.e. the production or test environment), they must be authenticated through myGovID. Upon successful authentication through myGovID, a user account is created in the APRA Connect environment and their name, email address and SubjectID are transferred to their APRA Connect profile in that environment.

Email notification is sent to:

- an organisation's Regulatory Reporting Administrator(s) ([APRA Connect role](#)), or an APRA Administrator if a Regulatory Reporting Administrator has not been defined, to inform them that roles need to be assigned to a new user.
- the new user, informing them that a Regulatory Reporting Administrator needs to assign their roles, and listing their organisation's Regulatory Reporting Administrator. If a Regulatory Reporting Administrator has not been defined for the organisation, they will be informed that an APRA representative will contact them.

Until the new user is assigned a role, their user status will be 'Inactive' and they cannot access the portal functionality. Refer to [Managing users](#).

Note: A user must access and be assigned roles in each [environment](#) separately.

Once roles are assigned, the new user receives email notification welcoming them to their APRA Connect account.

1.5 Accessing APRA Connect

1.5.1 APRA Connect production environment

The APRA Connect portal is the production environment through which entities submit their live production data.

Access the APRA Connect portal using the following URL; <https://connect.apra.gov.au>.

1.5.2 APRA Connect test environment

The APRA Connect test environment will help entities, service providers, and RegTechs to:

- familiarise themselves with the features and functionalities of APRA Connect.
- identify any changes required to existing systems and processes.
- engage with APRA on new collection design.

Access the APRA Connect test environment using the following URL;
<https://connect-test.apra.gov.au>.

Note: The [APRA query](#) process is not functional in the test environment as the precise queries that trigger the errors will not work on non-production data.

RegTechs

RegTechs should refer to the [RegTech onboarding information](#) on the APRA website for details of requesting access to the APRA Connect test environment.

1.5.3 Logging into APRA Connect

When you access either of the APRA Connect environments, click the **Continue with Digital Identity** button to be redirected to the Digital Identity system.

When prompted, select **myGovID** as your Identity Provider. Select **Remember my choice** to make future logins easier. You will be redirected to myGovID and RAM for authentication.

Do you have these?

 iOS or Android device

 [Two identity documents](#)

**myGovID**
Managed by the Australian Government

☒ Remember my choice
(Not recommended for shared devices)

Select myGovID

When authenticated you will be returned to the Digital Identity system to give consent for your details to be shared with APRA Connect. Under **Remember my consent** select **Yes, and don't ask me again.**

Give your consent

If you give consent, we'll only share these details with 

myGovID
Details provided by myGovID.

Your details	
Family name:	Citizen
Given name(s):	Alex
Date of birth:	08 December 1989
Email:	alexcitizen102@gmail.com

Remember my consent

Do you want us to remember your consent to share these details from **myGovID** with this service?

Yes, and don't ask me again.

Find out more about [giving consent](#) >

Note: Your *Date of birth* and myGovID *Email* details are not shared with APRA Connect.

When you give consent, you are returned to APRA Connect and logged in. Click **Continue** to start your APRA Connect session.

 **Logged in**

Continue

If you are a [new user](#), you must be assigned your applicable roles by a Regulatory Reporting Administrator.

myGovID timeout

myGovID authentication times out after 20 minutes. If you log out of APRA Connect and then log in again during this 20-minute period you will not need to reauthenticate. If you are responsible for multiple entities, you will need to select the required entity.

To avoid another person accessing APRA Connect using your credentials (e.g. if using a shared machine), ensure you close the browser window after you log out to force reauthentication.

1.5.4 APRA Connect session timeout

Your session will timeout if APRA Connect is idle for 60 minutes.

Any unsaved data will be lost and you will need to login again.

1.6 Getting Help

1.6.1 Technical help

If this publication does not assist with your enquiry or you are experiencing technical difficulties with APRA Connect, please contact the APRA Support Desk:

- on +61 2 9210 3400 Mon-Fri, 9:00am – 5:00pm (AEST), or via email: support@apra.gov.au

Note: The APRA Support Desk cannot assist with completing forms, or with any validation errors or warnings.

1.6.2 Help with completing forms and validation errors.

Refer to the APRA website for information on [APRA Connect taxonomy](#) which include the data dictionary, validations, reporting taxonomy and XSD (to validate files).

For support using APRA Connect or enquiries about completing forms, please contact APRA by emailing dataanalytics@apra.gov.au.

1.6.3 Digital Identity, myGovID and RAM help

For help please refer to the Australian Government's published materials about [Digital Identity](#), [myGovID](#), and [RAM](#).

Chapter 2 - APRA Connect Interface and Navigation

2.1 Environments

As well as having different URLs, the two APRA Connect [environments](#) can also be visually distinguished by:

- the name displayed in the title header, i.e. the test environment includes TEST in the name.

- the colour theme.

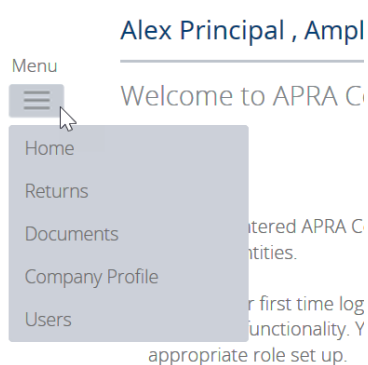

Navigation and most functions (excluding the [APRA query](#) process) are the same for both environments.

2.2 Navigation

2.2.1 Menu

The menu is available from all APRA Connect pages. The options available depend on your assigned role. Refer to [User roles](#) for descriptions of each role.

Option	Description
Home	Returns you to the APRA Connect home page.
Returns	Opens the Manage Returns page to access draft regulatory returns , and to create ad hoc and corporate returns.

Option	Description
Documents	Opens the Documents page, which will be used to share documents on an ad hoc basis.
Company Profile	Opens the Company Profile page where you can view the information held by APRA about your organisation. Refer to Company Details and Corporate Profile Returns for more details.
Users	Only available to those with the Regulatory Reporting Administrator role, to manage the user roles of your organisation's APRA Connect Portal users.

2.2.2 Icons

In the top right-hand corner of the screen you'll find the following icons:

Icon	Description
	Open your My Details page to edit your details.
	Open generic system help for the portal pages. For APRA specific information, please refer to this guide.
	Log Out.

2.2.3 Keyboard shortcuts

Portal action	Shortcut
Home	Shift+H
Manage Returns	Shift+D
Submission History	Alt+Ctrl+H
Create Return	Alt+Ctrl+C
Documents	Shift+X
Company Profile	Shift+C
Users	Alt+Ctrl+E
View/Edit My Details	Shift+M
Help	Shift+I
Log Out	Shift+L

2.3 Using lists

2.3.1 Sorting

Lists within APRA Connect can usually be sorted by clicking the desired column heading.

On lists that can also be filtered, an arrow indicates the sort direction, i.e. ascending or descending.

Name	Reference	Revision	Categories	Status	End date	Due date	Actions
RSE Structure Preview	SUP_STRUCT_PRE00055	0.1		No Data	22/02/2021		 
Member accounts	SUP_MEMACO0041	0.1		No Data	31/12/2020	31/03/2021	

2.3.2 Searching / Filtering

You can search/filter on single or a combination of columns that include a field or list at the top.

Delete or clear search criteria to display all list entries.

Free text fields

Free text fields enable you to search for entries with the entered criteria.

The default searches for entries beginning with the entered characters.

Click the filter icon beside the field to select an alternative criterion on which to search the column.

Predefined lists

Columns that display a limited number of predefined values, can be filtered by selecting the desired value from a drop-down list.

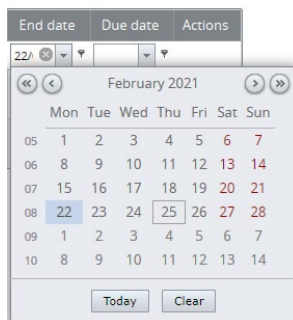

To clear the field, either select the empty list item or click the cross icon.

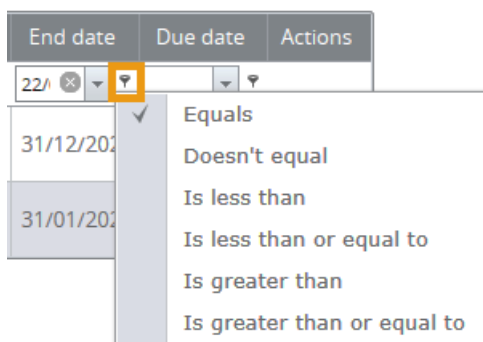

Dates

Date columns enable you to search for a specific date or filter on a date range.

The default searches for the exact date selected.

Click the filter icon beside the field to select an alternative condition to define a range of dates based on the selected date.

To clear the field, click the cross icon.

Chapter 3 - User Administration

3.1 My Details

To view and update your user details, click the **My Details** icon beside your name.

Taylor Secondary , Ample Entity Ltd   

3.1.1 Updating My Details

Your details are populated from myGovID/RAM. Because your name and email address must match for authentication, they can only be managed through RAM. This means only your Telephone number can be updated in APRA Connect:

1. Change your **Telephone number** as required.
2. Click **Update My Details**.

My Details

Edit My Details

Please, note, that you can update either the Email address or the Telephone number at a time and to update both, you would need to logout and login again.

Review your user account details below. To update, please enter new details and click the update button.

First name:	<input type="text" value="Taylor"/>	Locked Due to Permission Settings
Surname:	<input type="text" value="Secondary"/>	Locked Due to Permission Settings
Email address:	<input type="text" value="taylor@ample.com.au"/>	Locked Due to Permission Settings
Telephone number:	<input type="text" value="02"/> <input type="text" value="9246 2100"/>	*
	<small>Area code</small> <small>Number</small>	

Update My Details

Note: To update your email address, e.g. from personal to business, you will need to be reauthorised in [RAM](#). Refer to the [Relationship Authorisation Manager](#) website for details of managing authorisations and when details can be edited.

3.1.2 Viewing your permissions/roles

To see what [roles](#) are currently assigned to you, on the My Details page click the arrow beside **Assigned permissions / roles**.

Assigned permissions / roles: 		
Assigned to	Type	Roles
Ample Entity Ltd	Company	Portal - Regulatory Reporting Preparer

Click the role name for a description of the permissions associated with the role.

3.2 Managing users

Each organisation is responsible for the management of their APRA Connect users, and for ensuring roles are assigned in line with their own governance processes.

Organisations must have at least one person assigned to the *Regulatory Reporting Administrator* role, which is the only role with permissions to manage user access. APRA Administrators will assist by assigning the initial Regulatory Reporting Administrator with their permissions upon their first interaction with APRA Connect.

3.2.1 Activating new users

As detailed in [Getting Started with APRA Connect](#), new users must be authorised in the Relationship Authorisation Manager (RAM) to enable authentication with APRA Connect.

Once the user has accessed APRA Connect and successfully authenticated through myGovID for the first time, an APRA Connect account is created. The account needs to be activated and the appropriate roles assigned by an existing Regulatory Reporting Administrator. Refer to [Viewing and editing users](#).

Refer to [New Users](#) for more details about first time access to APRA Connect.

3.2.2 Deactivating users

If an APRA Connect user leaves the organisation or changes roles, part of the off-boarding process should be to make the person's account inactive in APRA Connect and their authorisation removed in [Relationship Authorisation Manager](#) (RAM). Refer to [Viewing and editing users](#).

3.2.3 User roles

APRA Connect user roles facilitate different levels of access (e.g. draft, upload or submit). This enables entities to limit access to sensitive information such as personal data required for Responsible Persons.

There is no limit on the number of users per role. Users may require a combination of roles to be able to access and complete the appropriate tasks.

Entities should be aware that granting access to a user enables them to view past and present data, in addition to editing submissions.

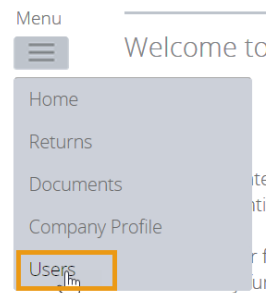

Role	Responsibilities, functions and access levels
Regulatory Reporting Administrator (RRA)	<p>Responsible for:</p> <ul style="list-style-type: none"> granting access to other RRAs, Preparers, and Service Providers. managing user roles and permissions to ensure users remain current. This involves updating users' permissions when a user departs the organisation. <p>APRA requires one Administrator to be nominated for each reporting entity (ABN). An RRA cannot assign additional roles to themselves. A second RRA would be required to assign additional permissions to an initial RRA. Where an entity has only one RRA a request to APRA will be required to make any change.</p> <p>RRAs are able to complete and submit returns.</p> <p>Users in this role will receive notifications pertaining to upcoming return due dates, Late Notices, and the availability of data queries.</p>
Regulatory Reporting Preparer	<p>Able to enter data or upload files into returns in APRA Connect in preparation for submission but will not have the Validate and Submit button available to them.</p> <p>Refer to Automatic submission of validated returns for information about automatic submission of uploaded data.</p>
Service Provider	<p>Able to enter data, upload files, validate and submit returns.</p> <p>This role can be assigned to third-party administrators who submit on behalf of an entity or any user that requires the ability to draft, upload and submit returns without them having the permission to assign roles to other users.</p>
Corporate Profile User	<p>Able to edit corporate profile information, including Responsible Persons and Accountable Persons. No other roles will be able to view this information.</p>
Sensitive Data Submitter	<p>Able to create, edit, save as draft, validate, and save and submit the File Upload for Sensitive Data returns.</p> <p>Once the return is submitted, all users, including users with the Sensitive Data Submitter role will not be able to access the attached files in the submission.</p> <p>Only users with the Sensitive Data Submitter role will be able to see the return in the submission history.</p> <p>While the return is in draft, users with the Sensitive Data Submitter role will be able to view the return and the attached files within the return. They are also able to edit, save as draft, validate and save and submit the return.</p>
Ad hoc return permissions	<p>An additional role to add in combination with an existing role, which allows the user to create a return. Ad hoc return permissions allow users to request resubmissions, request an extension or an exemption, or submit documents to APRA.</p> <p>This permission is also required for superannuation entities to create these ad hoc returns outside the standard reporting cycle; RSE Structure, Fees and Costs, and Insurance Arrangements.</p> <p>This role can be assigned to any user to extend their capability to create these types of requests and submissions at any point in time. It may be a suitable role to assign to a Service Provider to allow them to fully administer the entity's reporting obligations on behalf of the entity.</p>

3.2.4 Viewing and editing users

People with the Regulatory Reporting Administrator role can assign and edit the roles of other users in their organisation.

To view and edit a user:

1. From the Menu, select **Users**.

The Manage APRA Connect Portal Users page lists all people with active and inactive APRA Connect user accounts for your organisation.

2. In the Actions column click the **View/Edit** icon of the required individual.

3. To edit user roles click **Edit**.

View APRA Connect Portal User

First name:	Riley
Surname:	Profile
Email address:	riley.profile@ample.com.au
Telephone number:	02 987987987
Activation status:	Active
Permission:	<div><input type="checkbox"/> Portal - Regulatory Reporting Preparation <input type="checkbox"/> Portal - Regulatory Reporting Administration <input type="checkbox"/> Portal - Service Provider <input type="checkbox"/> Portal - Ad hoc return permissions <input checked="" type="checkbox"/> Portal - Corporate Profile Administration <input type="checkbox"/> Portal - Sensitive Data Submitter</div>

Edit

4. If updating a new user or deactivating a user, set **Activation status** as required.

Edit APRA Connect Portal User

This functionality allows you to grant users permissions in APRA Connect user(s).
I acknowledge that granting a Service Provider access to APRA Connect submission information, and I am authorised to provide such access.

First name:	Toni
Surname:	Shadow
Email address:	toni.shadow@ample.com.au
Telephone number:	44 6666
Activation status:	<div><input checked="" type="radio"/> Active <input type="radio"/> Deactivated</div>

5. To edit user roles, from the **Permission** list, check or uncheck the roles to apply to the user.

Permission:

<input checked="" type="checkbox"/>	Portal - Regulatory Reporting Preparation
<input type="checkbox"/>	Portal - Regulatory Reporting Administration
<input type="checkbox"/>	Portal - Service Provider
<input type="checkbox"/>	Portal - Ad hoc return permissions
<input checked="" type="checkbox"/>	Portal - Corporate Profile Administration
<input type="checkbox"/>	Portal - Sensitive Data Submitter

Save Cancel

6. Click **Save**.

Chapter 4 - Draft Returns

To open the Manage Returns page, select **Returns** from the Menu.

The Draft Returns list displays all returns that are available for completion, including [regulatory](#), [ad hoc](#), and [corporate profile](#) returns.

By default, the list is sorted by the date the returns were created. Use the column headings to sort as required. Refer to [Using lists](#) for further information.

Manage Returns

This page allows you to perform all activities related to managing returns.

Draft Returns

Name	Reference	Revision	Categories	Status	End date	Due date	Actions
<input type="text"/>	<input type="text"/>			<input type="text"/>	<input type="text"/>	<input type="text"/>	
Asset Allocation	SUP_AA00043	0.1		No Data	31/12/2020	31/03/2021	
Insurance Arrangements	SUP_IN SAR00050	0.1		No Data	31/12/2020	31/03/2021	
Member accounts	SUP_MEMAC00041	0.1		No Data	31/12/2020	31/03/2021	
RSE Structure Preview	SUP_STRUCT_PRE00055	0.1		No Data	22/02/2021		

The list shows each return's current status, reporting end date, and submission due date (if applicable).

Possible statuses for draft returns:

- No Data - Return has not been populated.
- In Draft – Some data has been entered/uploaded but is not yet complete.
- Complete – All required fields contain data and the return is ready for submission.

Note: Submitted returns are removed from the Draft Returns list. Click the **View Submissions** button to see returns that have been successfully submitted to APRA. Refer to [Submission history](#).

To generate a PDF of a return, click the icon in the Actions column.

To open a return, click the return's name.

4.1 Viewing a return

The View Return page displays the forms contained in the return. Once data has been entered, regardless of the status, it is visible to both APRA and entities – based on the user roles applied by your Regulatory Reporting Administrator, refer to [User Roles](#).

Data that has been entered, regardless of the method, can be viewed either by clicking:

- **Edit** to both view or alter the data
- **View** to only view the data
- **PDF** icon to view the data in a PDF format
- **Excel** icon to view the data in an Excel format

Data that has been uploaded via Excel, can be viewed via the **Upload History** icon, refer to [Upload History](#).

View Return

Return name:	SRS 611.0 Member Accounts	Return reference:	SUP_MEMAC05881
Return end date:	30/06/2023	Return due date:	28/07/2023
Return status:	No Data	Categories:	Quarterly

Actions

Upload Data

Please select a section to complete. You can partially complete a section and save it in draft for completion later. You can also view sections in PDF format.

Once all sections are completed and the structure is validated, the return can be validated against APRA's business rules and submitted using the Validate & Submit button on this screen or via the Submit Return functionality under the Submit Return menu.

After uploading a file you can refresh your browser to view the updated status. The uploaded file can be validated by clicking the Upload History button on this screen.

Note: if you do not provide data for any of the tables in this return, you acknowledge and understand that you have no data to report in those tables.

SRS 611.0 Member Accounts		Status: No Data
SRS 611.0 Member Accounts		
Entity Details	Edit View	
Member accounts (SRS 611.0 Table 1)	Edit View	
Member accounts (MySuper products) (SRS 611.0 Table 2)	Edit View	
Additional Notes		
Additional Notes	Edit View	

The icon displayed beside the return and form names indicate their current status:

- No data
- In draft
- Validated with no errors
- Schema and Formset version

4.1.1 Deleting existing return data

You can delete entered data from either an individual form or an entire return:

1. On the View Return page, click **Clear** either:
 - at the top of that pane, at the return level, to clear the entire return; or
 - for an individual form to clear only that form.

2. Click **OK** to confirm deletion.

Note: Once deleted, the data cannot be retrieved.

4.2 Downloading Excel versions of returns and forms

You can download an Excel version of a whole return or individual form, including entered data, at any time. The file generated through this process will show the valid values, as per the reporting standard, therefore this file cannot be used to upload and submit data to APRA Connect, refer to [uploading data return](#).

Note: The number of rows visible in the Excel download will be limited to the row limits enforced by Microsoft.

To download an Excel version of an entire return, on the View Return page, click the **Excel** icon at the top of that pane, at the return level, to download the entire return.

To download an Excel version of an individual form, on the View Return page, click the **Excel** icon for an individual form to download only that form.

4.3 Creating PDFs of returns and forms

You can generate a PDF version of a whole return or individual form, including entered data, at any time.

To create a PDF of an entire return, on the Manage Returns page, click the **Download PDF** icon in the **Actions** column.

	Due date	Actions
	<input type="text" value="16/11/2020"/>	
0	16/11/2020	
0	28/02/2021	

To create a PDF of a form, on the View Return page, click the **View in PDF** icon for the required form.

Status: In Draft
Clear
Clear Edit View 
Clear Edit View 

Note: The PDF file will not show data that exceeds the number of rows rendered on the screen. A message will provide a count of the number of rows that are contained in the table.

Chapter 5 - Company Details and Corporate Profile Returns

5.1 Company profile obligations

When your entity profile needs to be updated, new information is submitted to APRA through APRA Connect, using one of the available corporate profile returns.

For example, if changes to an entity's address are required, a 'Contact Information' return would be created and submitted.

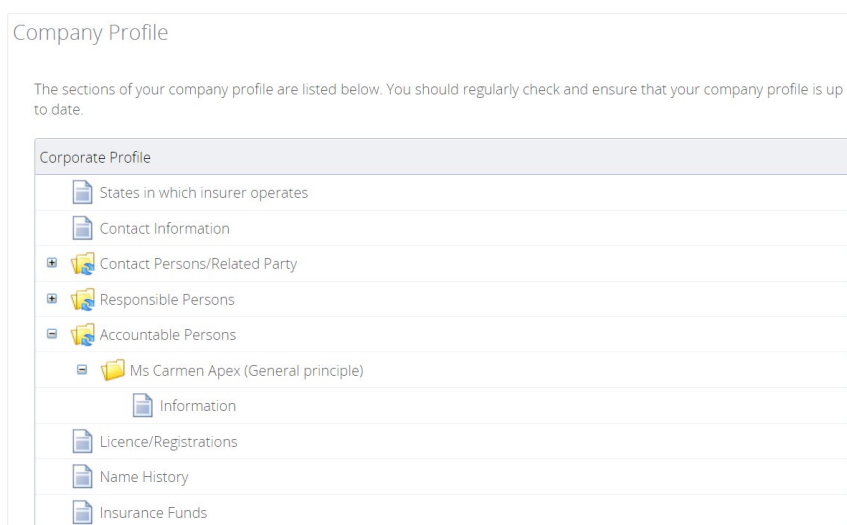

For details of your organisation's obligations, please refer to the applicable industry page on the [APRA](#) website.

5.2 Viewing your company profile

To view the information held by APRA about your organisation, from the **Menu** select **Company Profile**.

The Company Profile page displays a list of sections that make up your organisation's profile. Click a section to view its contents. The details displayed are dependent on the industry to which your organisation belongs.

The details in your entity's profile should be reviewed on a regular basis to ensure the information is kept up to date.

Changes to company profile details are made by creating and submitting the appropriate corporate return. Only users with the applicable permissions can create corporate returns to update an organisation's details. Refer to [User roles](#) for details of roles and permissions.

5.3 Creating a corporate return

Corporate Profile Users can create and submit corporate returns to update an organisation's details. Refer to [User Administration](#) for details of roles and permissions.

Note: Returns may be available to create that are not relevant to your organisation's industry.

Refer to the applicable prudential standard on the [APRA](#) website for details of reporting obligations for specific corporate returns.

5.3.1 Available corporate returns

Form set name	Description
Balance Date	Update balance date currently recorded in your organisation's profile.
Contact Information	Add or update your organisation's address and contact details. You can add multiple instances enabling you to add/update multiple address types in one submission.
Contact Persons/Related Parties	Add or update the detail of Individuals (e.g. Crisis Contact) and view related Legal Entities (e.g. Trustee). You can submit multiple instances in the same return. See Explanation of corporate roles in returns for more information.
Name Details	Submit a change of registered name for your organisation.
Responsible Persons	APRA regulated entities can add or update multiple instances in the same submission. See Explanation of corporate roles in returns for more information.

Authorised deposit-taking institution corporate returns

Please refer to the Banking Executive Accountability Regime (BEAR) page on the [APRA](#) website for information related to reporting obligations.

Form set name	Description
Accountability Map	Upload an accountability map independent of accountable persons details.
Executive Accountability Regime - Registration	Register accountable person to make BEAR submissions. May include accountability map. New Accountable Persons appear in the Corporate Profile once they are approved, which in most instances will occur 14 days after the return is submitted.

Form set name	Description
Executive Accountability Regime - Update	Make changes to your organisations recorded BEAR profile.

Private Health Insurance corporate returns

Please refer to the Private Health Insurance (PHI) industry page on the [APRA](#) website for information related to reporting obligations.

Form set name	Description
States in which insurer operates	Update the states and territories in which your organisation does business.

5.3.2 Creating and completing a corporate return

To create a new return:

1. From the **Menu**, select **Returns**.
2. On the Manage Returns page, click **Create Return**.

Manage Returns

This page allows you to perform all activities related to managing returns.

The page displays the available form sets to make up company profile returns.

3. Select the required form set from the list.

Create Return

To submit a corporate return, input a return name in either language and copy the same into the other required name field. Select the return to be submitted from the list below. The Effective Date is the earliest effective date of change contained in the return.

Return name:

Select form set:

- ☐ Accountability Map
- ☐ Ad Hoc Request and File Upload
- ☐ Balance Date
- ☐ Contact Information
- ☐ Contact Persons/Related Parties
- ☐ Executive Accountability Regime - Registration
- ☐ Executive Accountability Regime - Update
- ☐ Fees and Costs
- ☐ Name Details
- ☐ Responsible Persons
- ☐ RSE Structure
- ☐ RSE Structure Preview

Effective Date:

4. Enter a name for the return, using a naming convention that is meaningful to your organisation.

- Click the calendar icon and select the date from which the submitted details take effect

Effective Date: 

Clear

March, 2021

×

« < Today > »

wk	Sun	Mon	Tue	Wed	Thu	Fri	Sat
8		1	2	3	4	5	6
9	7	8	9	10	11	12	13
10	14	15	16	17	18	19	20
11	21	22	23	24	25	26	27
12	28	29	30	31			

Select date

- Click **Create**.

A confirmation page displays the return's reference number.

- To begin adding data to the return immediately, click the hyperlinked name to open the newly created return.

Return Created Successfully

Your return [Ample Entity - Change Contact Info](#) has successfully been created with the reference "CI00369".

You can now access the return whether click the Return name link above or in the "Draft Returns" area in the Returns area. When you have completed the return you can submit it in the same page by clicking the "Validate & Submit" icon link.

[Return to Manage Returns](#)

Draft returns can be accessed at any time from the [Manage Returns](#) page.

- Depending on the form set selected, either:

- click the **Add Section** icon; or

Ample Entity - Change Contact Info Status: No Data

 Contact Information

 Add Contact Information 

- click **Edit** for an existing form; or

Ample Entity Ltd_Map Status: No Data

 ★ Accountability Map

 ★ Accountability Map Edit View 

If creating an **Executive Accountability Regime – Update** return, see [below](#).

- Complete the form. Mandatory data is indicated by a red asterisk (*).
- To save and close:

- an incomplete form, click **Save as Draft**.
- a complete form, click **Validate and Save**.

The icon displayed beside the return and form names indicate their current status:

- ★ No data
-  In draft
-  Validated with no errors

When complete and validated the return can be submitted. Refer to [Submitting Returns](#) for more information.

Executive Accountability Regime – Update return

When creating an **Executive Accountability Regime – Update** [return](#) there are a couple of additional steps:

1. Complete steps 1 through 8 [above](#).
2. Select the person to be updated from the available list.

Select Accountable Person UAP

Entity Name Ample Entity
ABN 13704288646

Select Accountable Person to update

Accountable person to update

1451: Toni Green

Validate & Save

3. Click **Validate & Save** to display the form set.
4. Select the **Update Accountable/Responsible Person** form and make the required amendments.

Executive Accountability Regime - Update Clear

Update an Existing Accountable Person Delete All | Clear All

1451: Toni Green Clear | Delete

Select Accountable Person Clear | Edit | View | Delete

Update Accountable Person Edit | View | Delete

Accountability Map

5. Continue from step 10 [above](#).

5.4 Updating corporate profile information

If the details of a previously submitted corporate profile return need to be updated, a new return of the same type should be created and submitted with the new information.

Resubmissions should not be requested to update corporate returns.

The exception is if an Accountable Person registration has been submitted but not yet approved by APRA, and the registration needs to be withdrawn. In this case, resubmission can be requested for the Executive Accountability Regime – Registration return. Refer to [Requesting a resubmission](#) for further information.

5.5 Explanation of corporate roles in returns

Information about relevant employees at your organisation is submitted to APRA through three types of returns, each with different requirements:

Return	Description
Contact Person/ Related Party	<p>Employees recorded in these roles predominantly assist APRA in where to target specific correspondence or to enable APRA Extranet access. Available role types include:</p> <ul style="list-style-type: none">• Roles required for Extranet access:<ul style="list-style-type: none">- Chief Executive Officer (or equivalent)- Company Secretary- Prudential Contact- ILDR Contact – Internal Loss Data Refresh upload- SDCP Contact• Billing contact – addressee for APRA levies• Crisis management contact• Regulatory Reporting Contact – contact person for reminder notices, Late Notices, post-submission query process for returns still submitted in D2A.
Responsible Persons	Refer to the relevant <i>Fit and Proper Prudential Standards</i> for your industry on the APRA website.
Accountable Persons	Refer to the most current information on the <i>Executive Accountability Regime</i> on the APRA website.

Chapter 6 - Completing Regulatory Returns

6.1 When returns become available

Returns become available for completion in APRA Connect on the end date of the reporting period to which they apply. Please refer to your industry's page on the [APRA](#) website for information related to reporting obligations.

Returns are added to your list of draft returns on the [Manage Returns](#) page.

Email notification is sent to Regulatory Reporting Administrators seven days before the due date of a return.

6.2 Regulatory return completion and submission overview

The following diagram gives an overview of the process of completing regulatory returns.

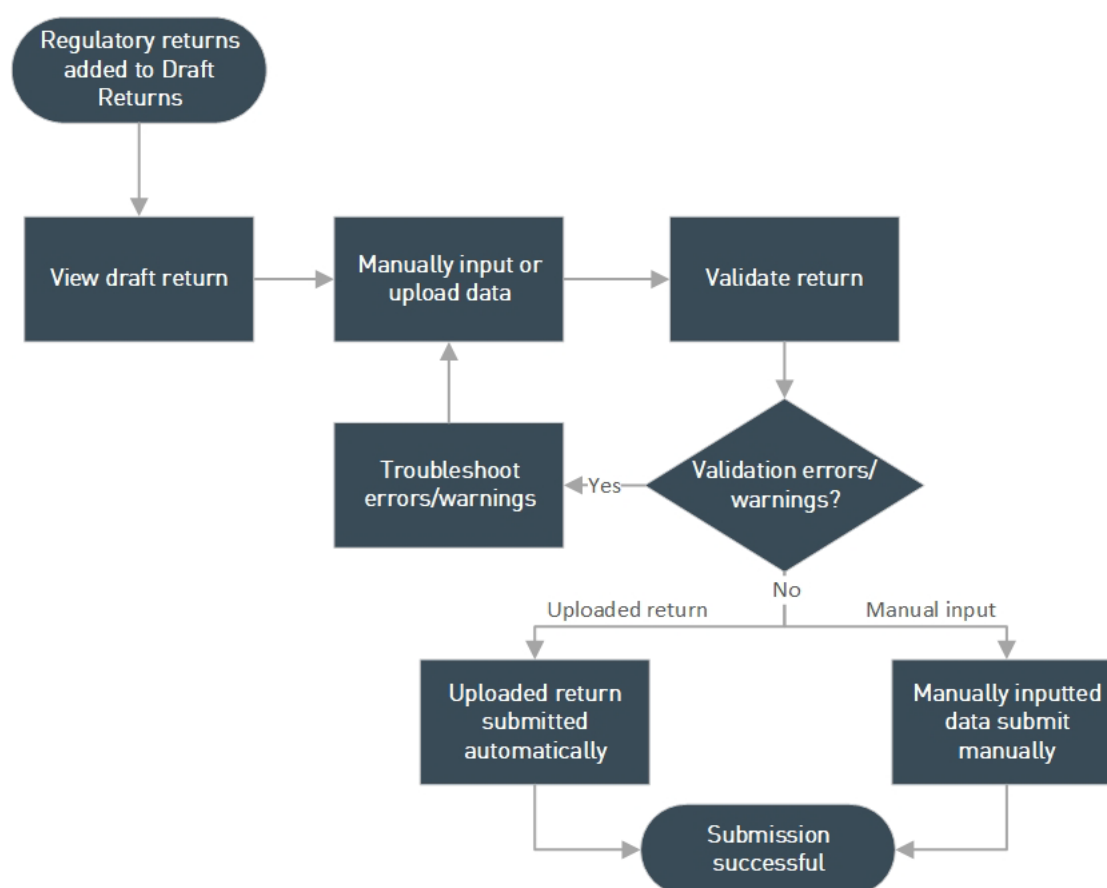

Figure 1. Return completion and validation process overview

6.3 Uploading return data

6.3.1 Automatic submission of validated returns

When a complete data file is uploaded without validation errors or warnings, APRA Connect's default functionality automatically submits the return regardless of the [user role](#) of the person performing the upload. Validation and submission of large returns is performed [in the background](#), to minimise the time the system is unavailable during the validation process, and to avoid system timeouts.

Optional validation approval

To accommodate varying governance and business processes across entities, an optional approval step is available in the form of a validation rule triggered prior to submission. The additional validation is activated on an opt-in basis for individual entities (see [below](#)). When activated, the approval validation warning requires confirmation that the validated data return is to be submitted.

The rule functions in the same way as other [validation warnings](#); a comment is required to confirm submission before a person with submission [permissions](#) can click **Continue to submit**. The **Save Comments** option can be used by the uploader to enter a comment for review by an authorised submitter.

Submission Validation Issues

Validation checks have identified data which needs explanation or confirmation prior to submission to APRA. Details of the validations triggered are below.

Rule name	Type	Problem	Additional information	Comments
SRF 332.0 No auto-submit	Warning	1. Please confirm you wish to proceed with submitting this return to APRA by providing a comment and clicking the Continue to submit button, or click Back if you don't wish to submit.	This warning has been introduced to avoid auto-submission of data to APRA; please contact APRA if you would prefer to auto-submit when all validation rules have passed or been addressed.	<input type="text"/>

Your return has warnings, but no errors. All warnings need to be addressed using the comments column before you can continue to submit.

Save Comments

Continue to submit

[Printer Friendly Format](#) | [Show errors in new window](#)

Opting-in to optional validation approval

To opt-in to the additional approval, notify APRA by sending an email to dataanalytics@apra.gov.au containing the name and ABN¹ of each entity to which the validation rule is to be applied.

¹ For Superannuation entities, this is the ABN of the fund, not the Trustee.

APRA does not recommend entities with large data sets to opt into the no auto submit validation rule.

Note: In some instances, APRA will not make this validation rule available in all collections. In particular, where the volume of data that is expected to be submitted will affect the performance of the system.

6.3.2 Excel form layouts

The definitions for Excel uploads are contained in the form layouts in the reporting taxonomy artefacts available from the *Reporting Resources* page for your industry type on the [APRA](#) website.

It is important to retain the format of the form layout to ensure successful upload. This includes not altering the layout of the template (e.g. removing rows or columns) and in most cases not changing the worksheet names.

However, when reporting data in granular data collections for multiple funds (applicable to selected Private Health Insurance, Life Insurance and Friendly Society collections) you are required to create a copy of the form layout for each fund in a separate worksheet, with the name of the form followed by a sequential number in brackets (as shown below).

The form layout will:

- contain the definition of the allowed values for drop-down values; and
- identify derived fields with crossed diagonal lines to indicate the cell does not need to be entered.

Note: Only the EntityDetails and form layout worksheets are required when uploading your data to APRA Connect. All the other worksheets, that are published in the reporting taxonomy, should not be included in your upload.

6.3.3 XML definitions and specifications

The XML definition file and specifications (XSD) for a return are available from the Upload Data window. Follow the first two steps [below](#) to open the window and click the links.

The downloaded definition file can be used to validate your XML files before uploading.

Clicking **XML specs** opens the View Return page with the forms and tables marked up with the schema item/list names.

Insurance Arrangements		
	Insurance Arrangements	[SUP_INSAR]
	Entity Details	[EntityDetails]
	Current	[SRF_251_0_Table_1]
	insurance	
	arrangements	
	Previous	[SRF_251_0_Table_2]
	insurance	
	arrangements	
	Insurance	[SRF_251_1_Table_1]
	offerings	

XML file definitions are also available from the [APRA Connect support material](#) page for your industry type on the [APRA](#) website.

You can create sample XML files using your organisation's XML editor and the downloaded definition file.

Entities may choose between Excel and XML based on their own organisation's needs and technical capabilities; however, if the data being uploaded exceeds the row limits allowed in Excel then entities must use XML.

6.3.4 File types

Valid file types can differ between returns. You can locate the list of the file types for a specific return in the Upload Data window. See [below](#) for steps to access the Upload Data window.

definition file. To see how the data on the form should be represented in XML, view [XML specs](#).

! Allowed file types are: xls,xlsx,zip,rar,7z,gz,xml,xml,zip. If .xbml is a valid file type, to speed up the upload process it is recommended that XBRL/IXBRL files greater than 10Mb are compressed using the standard .zip format. No other compression formats are currently accepted.

6.3.5 Empty rows in tables

Tables cannot contain empty rows, whether uploaded or manually entered. Refer to [Adding and deleting table rows](#).

6.3.6 Uploading return data

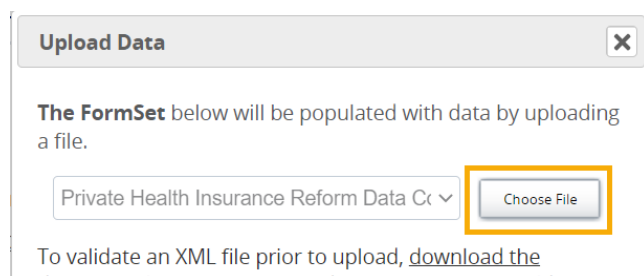

Note: When a file that passes all validation is uploaded by any user, the file is automatically submitted. See [Automatic submission of validated returns](#)

To upload return data from a file:

1. On the View Return page, under Actions, click **Upload Data**.

2. Click **Choose File**.

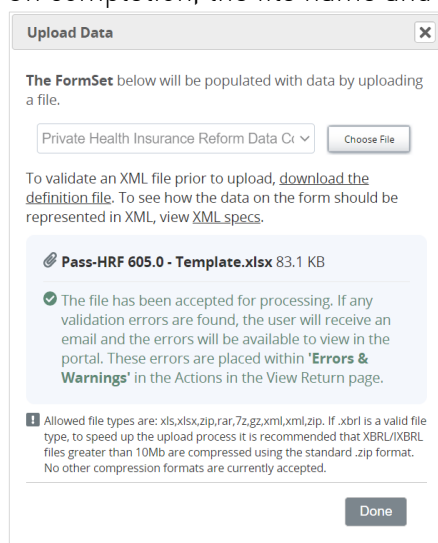

If you are uploading data into a return where forms already contain data, you will be prompted to delete the existing data before proceeding. Refer [below](#) for further details.

3. Locate and select the prepared file to upload.

The file type is validated and uploaded.

On completion, the file name and upload status is displayed.

4. Click **Done** to close the window.

If offline processing is enabled for the return, you can continue using APRA Connect while processing takes place. Refer to [Offline processing](#).

When the file is complete and uploaded without validation errors or warnings:

- by default, the return is [automatically submitted](#); or
- if your entity has opted-in to the additional approval step, the submission must be confirmed. See [Optional validation approval](#).

When returned to the View Return page, you may need to click **Refresh status** to update the return's status. The View Return page shows:

- each form as **Validated with no errors** ; and
- the Return status as **Submitted**.

If validation errors or warnings are encountered, the Errors & Warnings icon is displayed under Actions on the View Return page. Refer to [Data Validation](#) for more information.

Actions

Errors should be corrected in your source system to avoid the same errors in the future, rather than manually correcting issues in the return.

Notes:

- The entity name is not uploaded or validated. If the entity name is incorrect in the uploaded file, it will not trigger an error.
- Validation rules triggered when uploading incomplete return data are not necessarily indicative of all the possible rules. As further data is added to a return, further validation rules may trigger. It is recommended you complete all forms in a return before clicking [Validate & Submit](#) and addressing any errors triggered.

6.3.7 Uploading into a return with existing data

A return may be completed by uploading multiple files containing the required data.

Note: For large amounts of data, it is recommended that data for individual forms within the return should not be split across multiple files.

If you are uploading data for a return where forms already contain data, you will be prompted to delete the existing data before proceeding.

definition file. To see how the data on the form should be represented in XML, view [XML specs](#).

There is existing data. Do you want to delete all existing data before uploading a new file?

Delete

No

Allowed file types are: xls,xlsx,zip,rar,7z,gz,xml,xml,zip. If .xbrl is a valid file type, to speed up the upload process it is recommended that XBRL/IXBRL

If you select	Result
No	<ul style="list-style-type: none"> Uploaded table rows are appended to existing data. Validation errors will occur if the uploaded rows are the same as the existing row data (i.e. row data must be unique). If a field contains different values in both forms, you must select which value to use. If a field contains a value in one form and is blank in the other, the blank field is ignored and the data from the completed field is used. If the file contains only data for a form that currently contains no data, the data is added to the empty form and other forms are unaffected.
Delete	All data in the return will be cleared.

6.3.8 Uploading data at the same time as another user

If you trying to upload data for a return at the same time as someone else, depending on the timing you may encounter one of the following:

- If the portal has had time to register the other person's uploaded data before you click **Choose file**, you will be prompted to delete the existing data before proceeding. See [above](#).
- If the other person's file is still being processed when you select and open your file, you will receive an error and your file will not be uploaded.

 **Pass-HRF 605.0 - Template2.xlsx** 81.5 KB

 Unable to upload file. Try again.

6.3.9 Upload history

A return's upload history is available from the View Return page of either a draft return or its submission history. Click **Upload History** under Actions.

The View Upload History page lists the details of each file uploaded for the return, including a link to view the file, and any validation errors encountered if applicable.

Hash value

The Hash for each uploaded file is used to verify that the data has maintained integrity; i.e. that the data has not been modified, tampered with, or corrupted. No matter how many times the hashing algorithm is executed (on upload) against the data, the Hash remains the same as long as the data is the same.

To display the Hash below the list, click **Show** for the required list entry. This value can be used for audit purposes.

View Upload History

Return name: Asset Allocation

Reference: SUP_AA01202

Please select a file to view

File	Uploaded on	Uploaded by	Uploaded to	Status	Hash
550.0.XML.xml	17/05/2021 17:47:25		Asset Allocation	Processed	<button>Hide</button>
550.0.XML.xml	17/05/2021 17:39:43		Asset Allocation	Processed	<button>Show</button>

myDr4oifR5qfEz/bqGylWMH0OGhEtH75hsTkhdg6nem9rjEuTclHyLohjlAb4cCFukRaB4w9j66Oz7BpnQxiqA==

6.4 Manually entering return data

To manually enter data in a form:

1. Open the required form, by clicking either the form name or **Edit**.

Some returns require you to add a form by clicking the **Add section** icon . Refer [below](#).

2. Enter the required data in the form fields.

Mandatory fields are indicated by a red asterisk.

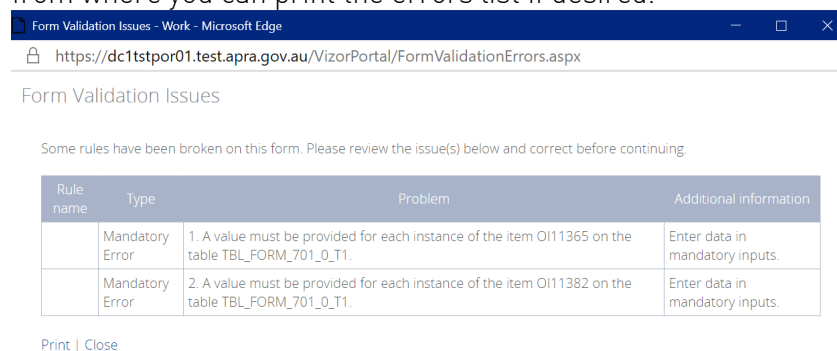

Field level validation ensures you cannot enter the incorrect data type for a specific field. An error message is displayed.

3. To save and close:
 - an incomplete form, click **Save as Draft**.

- a complete form, click **Validate and Save**.

If form level validation errors are present, the error list is displayed in a popup window, from where you can print the errors list if desired.

Click **Close** to return to the form and either:

- o Correct the errors and re-validate; or
- o Save a draft to return to later.

Refer to [Data validation](#) below for further information of validation errors

Forms should be saved at regular intervals to minimise the risk of losing data due to an interruption to your connection.

6.4.1 Adding and deleting table rows

To add rows to a form table, click the **Add** button at the bottom right corner of the table.

To delete rows from a form table, click the **Delete** button at the far-right end of the applicable row.

Notes:

- APRA Connect does not support the pasting of tables copied from Excel (or any other file format).
- When using the Tab key to move around and interact with a table, lists and buttons (i.e. Delete and Add) are not highlighted.

6.5 Forms with no data

Where a form can be submitted without data and you have no data to report, the form needs to be validated to indicate you are knowingly submitting it empty:

1. Open the required form, by clicking either the form name or **Edit**.
2. Click **Validate and Save**.

The form is displayed on the View Return page with the **Validated with no errors** icon, and you will see the following note for forms that are confirmed empty:

Note: If you do not provide data for any of the tables in this return, you acknowledge and understand that you have no data to report in those tables.

6.6 Repeatable forms

6.6.1 Uploading data

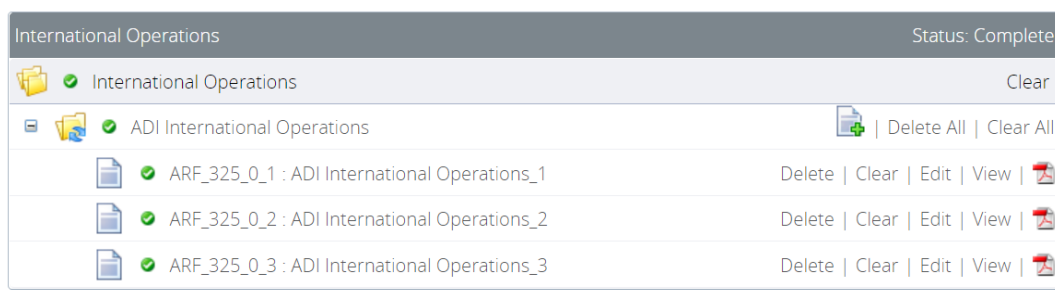

When uploading a return that can include multiple instances of the same form, the required forms are automatically generated based on contents of the uploaded file.

6.6.2 Manually entering data

When a return can include multiple instances of the same form, you can add as many forms as required to meet reporting obligations by clicking the **Add Section** icon.

Each form name is uniquely identified depending on the context of the return.

6.6.3 Deleting instances and clearing data

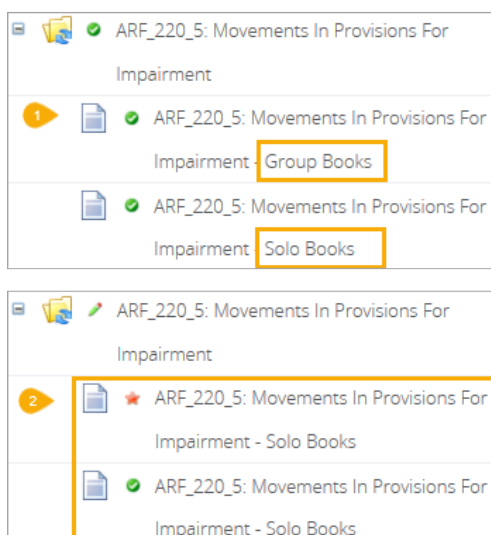

There are a few options for deleting and clearing repeatable forms:

Option	Description
Delete All	Deletes all forms.

Option	Description
Clear All	Removes data in all forms. The forms remain and their status changes to No Data
Delete a form instance	Deletes the individual form.
Clear a form instance	Removes data from the individual form. Its status changes to No Data.

Note: If you clear one of the reporting consolidation forms after a file upload, the reporting consolidation of the cleared instance changes to that of the remaining instance. You will need to manually change the reporting consolidation using the drop-down list in the form.

6.7 Data types

Data type properties are defined in the Data Dictionary available from the *APRA Connect Taxonomy Artefacts* section of the [APRA](#) website.

Notes:

- For monetary and percentage values, \$ or % signs are not required.
- Percentage values should be reported as an unconverted number, as per the relevant reporting standard, for example 12.34% should be reported as 0.1234.

6.8 Additional Notes

If required, use the Additional Notes form to add information relating to data in the return.

6.9 Rounding

APRA Connect uses Bankers rounding wherever rounding is applied.

The Bankers rounding method rounds x.5 values (i.e. numbers that are equidistant from the two nearest integers) to the nearest even number. This means the value may be rounded up or down depending on the nearest even number.

For example, 6.5 rounds down to 6 (because 6 is an even number), and 7.5 rounds up to 8 (because 8 is an even number). 0.5 rounds down to 0.

All other numbers are rounded as normal.

Further examples are given in the following table:

Original	Rounded
0.4	0
0.5	0
0.6	1
1.4	1
1.5	2
1.6	2

6.10 Data validation

All forms are validated before submission. There are two types of checking performed:

Check	Description
Error	Mandatory validation errors must be corrected and re-validated prior to proceeding with the data submission. You cannot submit a return with mandatory errors.

Check

Description

Warning

Validation Warnings highlight data discrepancies or abnormal variations. These often relate to typographical or transposition errors. In some cases, the data is accurate.

In cases where the data is correct, when all mandatory validation errors have been addressed, you can click **Validate & Submit** and confirm that you have checked the data and provide an explanatory comment for the discrepancy in order to submit the return.

Submission Validation Issues

Validation checks have identified data which needs explanation or confirmation prior to submission to APRA. Details of the validations triggered are below.

Rule name	Type	Problem	Additional information	Comments
SRF 332.0 Table 3 00005	Warning	1. For row number 5, please explain why a negative value was reported in Table 3: Investment management expenses, Service Arrangement Investment Management Cost Amount.		* <input type="text"/>

Your return has warnings, but no errors. All warnings need to be addressed using the comments column before you can continue to submit.

Save Comments

Continue to submit

[Printer Friendly Format](#) | [Show errors in new window](#)

You can use the **Save Comments** option to enter a comment for future review. Click **OK** on the confirmation message.

Comments saved successfully

Please note that your comments will be automatically deleted if you make any changes to the Return data

OK

Note that saved comments are deleted if changes are made to the return data.

For more information on validation rules and guidelines for providing explanations, refer to the [APRA Connect Taxonomy Artefacts](#) page on the APRA website.

If errors or warnings are encountered during the validation process when [uploading](#) or [manually submitting](#) return data:

- The **Errors & Warnings** icon is displayed under **Actions** on the View Return page. The number indicates how many errors/warnings need to be addressed.

Click the icon to view the read-only list of errors/warnings.

- If data could not be uploaded, affected forms (or the entire return) are indicated by the red star icon ★ (No data).

- The Manage Returns page displays one of the following statuses for the return with an exclamation mark icon:

Return status	Description
No Data 	If an upload fails due to errors, the status is displayed as No Data. Correct the errors retry the upload. On the View Return page, forms containing errors are displayed with the In Draft icon  .
In Draft 	If the file uploads successfully but validation errors are encountered, the status is displayed as In Draft. On the View Return page, forms containing errors are displayed with the In Draft icon  .
Complete 	If the file uploads successfully but validation warnings are encountered, the status is displayed as Complete. Refer to Data validation .

6.10.1 Cross form, cross return, and cross period validation

Cross form

Cross form validation errors occur when there are discrepancies in expected values when compared across multiple forms. For example, the same field may be expected to have the same value across multiple forms in a return.

Cross return

Cross return validation errors occur when there are discrepancies in expected data item values when compared with values in different returns.

Cross period

Cross period validation errors occur when there are discrepancies in expected values when compared across return for multiple periods.

6.10.2 Exporting validation error and warning messages

Validation error and warning messages can be exported to Excel and downloaded for easy review. Warning comments can also be [imported](#).

The Export option is available when the Validation Issues are accessed by clicking **Validate & Submit**.

View Return

Return name: 	Return reference: SUP_PROFILE02989
Return end date: 31/12/2021	Return due date: 31/12/2022
Return status: Complete 	Categories: Quarterly

Actions

The **Export** icon is available on the Validation Issues page.

Validation Issues

This return has triggered validation errors/warnings which are mandatory to address before the return can be submitted. Details of the validations triggered are below.

Rule name	Type	Problem	Additional information
-----------	------	---------	------------------------

The Excel template always contains the most up-to-date rules failures. You will get an alert when clicking the **Export** icon if the return has been re-validated by someone else. The system will then automatically refresh the page to display the new rules failures.

Notification ✕

Please note that the return has been re-validated, click OK to see the updated list of validation errors and warnings. In order to export the list of validation errors and warning, please click on the Export icon.

OK

Various scenarios will encounter different alert messages, which will require different actions. A brief breakdown of these scenarios (including the alert message received) and relevant actions required are provided in the following table.

Scenario	Alert message	Action
When the return has been re-validated with errors/warnings	This return has been re-validated, so this page will be refreshed to display the new validation errors/warnings. Please click the Export icon again to download the template when this page refreshed.	Refresh the page to download the up-to-date Excel template.
When the return has been re-validated without errors/warnings	There is no error/warning to display as this return has been re-validated without error/warning.	Click OK.to re-direct to the View Return page.
When the return has been submitted	There is no error/warning to display as this return has been submitted. Click here to see the submitted return, otherwise, will redirect to the Draft Returns	<ul style="list-style-type: none">Clicking Click here will re-direct to the Submission History page.Clicking OK will re-direct to the Draft Returns.

Export Template

Please note the following export template properties:

- The export template format is XLSX. (To open XLSX files in older versions of Excel, you need to install the Microsoft Office Compatibility Pack.)
- Filters and freeze pane are automatically applied to the column headers.

- The comments column distinguishes between rules that can be given an explanation and those that can't. (If there are both errors and warnings this column will not visible.)
- Only the warnings comments column is editable.
- Cells that cannot be edited will have a grey background.

An example of the Excel template with only warnings:

Company Name	Return Name	Revision	Periodicity	End Date	Return ID	Rule name	Type	Problem	Additional information	Comments (4000 characters)

An example of the Excel template with errors and warnings:

Company Name	Return Name	Revision	Periodicity	End Date	Return ID	Rule name	Type	Problem	Additional information
Test Entity	SRS 332 Expenses	0.1	Annually	30/06/2022	3321	SRF 332.0 No auto-submit	Warning	Please confirm you wish to proceed with submitting this return to APRA by providing a comment and clicking the Continue to submit button, or click Back if you don't wish to submit.	
Test Entity	SRS 332 Expenses	0.1	Annually	30/06/2022	3321	SRF 332.0 Table 1 00001	Error	The value reported in Table 1: Service providers, Service Provider Shareholding Relationship Percent 2.0000 must be between 0 and 1 (inclusive) and entered in decimal format. Check row with Service Provider Identifier SPI2.	
Test Entity	SRS 332 Expenses	0.1	Annually	30/06/2022	3321	SRF 332.0 Table 1 00003	Error	The value reported in Table 1: Service providers, Service Provider Identifier SPI2 must either be reported in Table 2: Administration and other expenses reporting, Service Provider Identifier or in Table 3: Investment management expenses, Service Provider Identifier.	

6.10.3 Importing comments for warnings

You can upload an Excel template to populate your comments and provide explanations for warnings.

The **Import** option is only displayed when there are warnings that require explanations.

Submission Validation Issues

Validation checks have identified data which needs explanation or confirmation prior to submission to APRA. Details of the validations triggered are below.

 Export  Import

Rule name	Type	Problem	Additional information	Comments
SRF 332.0 Table 3 00005	Warning	1. Please explain why a negative value was reported in Table 3: Investment management expenses, Service Arrangement Investment Management Cost Amount. Check row with: Service Provider Identifier - SPI1 Superannuation Fund Or Licensee Type - RSE Investment Expense Service Type - Custody Investment Asset Class Sector Type - Equity Investment Listing Type - Listed Investment Domicile Type - Australian Domicile Asset Class Description Text - ACD text Service Arrangement Inclusions Exclusions Text - SAIE text.		<div><div>*</div><div></div></div>

Note: If there are errors and warnings the Comments columns will not be visible, and when you export to Excel the template will not contain this column. If there are errors and warnings, you must resolve all errors and then re-validate and export the warnings only.

To import an Excel template:

1. Click **Validate & Submit**.
2. Click **Import**.
3. Click **Choose File**, to browse to and select the file to import.

Import Warning Comments

If using an excel file to import your warning comments, you can use the export functionality which will serve as a template or [click here to download a template](#) . Note that only the 'Comments' column can be editable in the template.

Choose File

i Supported file types: .xls or .xlsx, are permitted up to a maximum file size of 3145728 MB. Upload a supported file type not exceeding the permitted max file size.

ImportCancel

This window will list any issues with the import file. Errors in the file need to be resolved before the Import button becomes available. Refer to [Import file errors](#) for more information.

Import Warning Comments

If using an excel file to import your warning comments, you can use the export functionality which will serve as a template or [click here to download a template](#) . Note that only the 'Comments' column can be editable in the template.

Choose File

Done

Cancel

You can see the populated comments on the Submission Validation Issues page.

Importing into a re-validated return

If the return has been re-validated by another user, you can still import the comments. The system will match them with the latest failures by rule name and error message. Once matched the system will apply the comments to the matched failures.

Import file errors

There are a number of file related errors that can cause it to fail validation and not be uploaded, e.g.:

- invalid file type, size or has virus issues.
- rows are missing
- the uploaded file is incorrect for the revision.
- comments exceed the 4000 characters limit.

A file will also return errors if the return has already been submitted by another user, and the file cannot be uploaded.

6.11 Ad hoc returns

Ad hoc returns can be created at any time by those with the [Ad hoc return permissions](#) role.

There are two types of ad hoc returns:

- The **Ad Hoc Request and File Upload** return can be used by any entity to submit files or make requests. Refer [below](#).
- The **RSE Structure, Fees and Costs**, and **Insurance Arrangements** returns are specific to Superannuation entities. Refer [below](#).

6.11.1 Creating ad hoc returns

To create an ad hoc return:

1. From the **Menu**, select **Returns**.
2. On the Manage Returns page, click **Create Return**.

Manage Returns

This page allows you to perform all activities related to managing returns.

3. From the form set list, select the required return.

Create Return

To submit a corporate return, input a return name in either language and copy the same into the other req. Select the return to be submitted from the list below. The Effective Date is the earliest effective date of char the return.

Return name:

Select form set:

- ☐ Accountability Map
- ☒ Ad Hoc Request and File Upload
- ☐ Balance Date
- ☐ Contact Information
- ☐ Contact Persons/Related Parties
- ☐ Executive Accountability Regime - Registration
- ☐ Executive Accountability Regime - Update
- ☐ Fees and Costs
- ☐ Name Details
- ☐ Responsible Persons
- ☐ RSE Structure
- ☐ RSE Structure Preview

Effective Date: 

Create

4. Enter an appropriate name for the return, using a naming convention that is meaningful to your organisation.
5. Click the calendar icon and select the date from which the request takes effect.

Effective Date: 

Clear March, 2021 x

« < Today > »

wk	Sun	Mon	Tue	Wed	Thu	Fri	Sat
8		1	2	3	4	5	6
9	7	8	9	10	11	12	13
10	14	15	16	17	18	19	20
11	21	22	23	24	25	26	27
12	28	29	30	31			

Select date

6. Click **Create**.

A confirmation page displays the return's reference number.

7. To begin adding data to the return immediately, click the hyperlinked name to open the return.

Return Created Successfully

Your return **Extension request** has successfully been created with the reference "AHS00555".

You can now access the return whether click the Return name link above or in the "Draft Returns" area in the Returns area. When you have completed the return you can submit it in the same page by clicking the "Validate & Submit" icon link.

[Return to Manage Returns](#)

Draft returns can be accessed at any time from the [Manage Returns](#) page.

8. Complete the return as required.
9. To save and close:
 - an incomplete form, click **Save as Draft**.
 - a complete form, click **Validate and Save**.
10. When complete and validated the return can be [submitted](#).

6.11.2 Creating file upload for sensitive data

File Upload for Sensitive Data returns can be created at any time by those with the [Sensitive Data Submitter](#) role.

To create a File Upload for Sensitive Data return:

1. From the **Menu**, select **Returns**.
2. On the Manage Returns page, click **Create Return**.

Manage Returns

This page allows you to perform all activities related to managing returns.

3. From the form set list, select the required return.

Create Return

To submit a corporate return, input a return name in either language and copy the same into the other required name field. Select the return to be submitted from the list below. The Effective Date is the earliest effective date of change contained in the return.

Return name:

Select form set:

Note: This will be the view if the user has both the Ad hoc return permissions and Sensitive Data Submitter role.

4. Enter an appropriate name for the return, using a naming convention that is meaningful to your organisation.
5. Click the calendar icon and select the date.

Effective Date: 

Clear March, 2021 x						
Today						
wk	Sun	Mon	Tue	Wed	Thu	Fri
8		1	2	3	4	5
9	7	8	9	10	11	12
10	14	15	16	17	18	19
11	21	22	23	24	25	26
12	28	29	30	31		

Select date

6. Click **Create**.

A confirmation page displays the return's reference number.

7. To begin adding data to the return immediately, click the hyperlinked name to open the return.

Return Created Successfully

Your return **Board papers** has successfully been created with the reference "AH_SENSF06127".

You can now access the return by clicking on the Return name link above or by navigating to the "Draft Returns" page from the Returns menu. Once completed, the return can be submitted by clicking the "Validate & Submit" icon link from the same page.

[Return to Manage Returns](#)

Note: Draft returns can be accessed at any time from the [Manage Returns](#) page by all users with the Sensitive Data Submitter role.

8. Complete the return as required.
9. To save and close:
 - an incomplete form, click **Save as Draft**.
 - a complete form, click **Validate and Save**.

When complete and validated the return can be [submitted](#).

Note: Once submitted, the attached files for a submission cannot be viewed, edited, updated, or deleted. If these are actions are required, please contact APRA by emailing dataanalytics@apra.gov.au

6.11.3 Ad hoc request and file upload

The **Ad Hoc Request and File Upload** return can be used to:

- submit file attachments, such as audit reports, Risk Management Declarations, Trustee Financial Statements, Financial Condition Reports, ICAAP reports and declarations, etc.
 - **Accepted file formats for supporting document uploads =**
 .xls, .xlsx, .csv, .doc, .docx, .pdf, .ppt, .pptx, .jpeg, .jpg, .png, .bmp, .tif, .gif, .zip

- **Max. file size upload** = 30 MB
- make a specific request to APRA, such as request a reporting due date extension or an exemption for submitting a return or form. Requests for due date extensions and return or form exemptions must be received by APRA in advance of the due date.

Note: Ad hoc returns are not used to request the resubmission of regulatory returns. Refer to [Requesting a resubmission](#).

When completing the return:

1. Click **Edit** for the **Ad Hoc Request and File Upload Form**.

Extension request		Status: No Data
	Ad Hoc Request and File Upload	
	Ad Hoc Request and File Upload Form	Edit View

2. Select the return type; **Request** or **Submission**.

Form View

Ad Hoc Request and File Upload Form

This return allows an Entity to submit any other unscheduled, unstructured returns, for example supplementary information such as Board Minutes or Organisation Charts. Additionally, it can be used to Request an Extension to a Return Due Date or Request an Exemption to a Business Rule.

Entity Name: Ample Entity Ltd
Party ID: 6090

Please select Ad Hoc type: **Request**

N.B. Acceptable file types are:
.xls, .csv, .doc, .pdf, .ppt, .jpeg, .png, .tif, .gif, .zip

Comments

3. If **Request** is selected, select the applicable type of request.
4. In the **Comments** field, include the return or form, and the reference period the request relates to.

6.11.4 File upload for sensitive data

The **File Upload for Sensitive Data return** can be used to:

- submit file attachments for any data that is deemed sensitive in nature as determined by your institution.
 - **Accepted file formats for supporting document uploads** =
.xlsx, .csv, .docx, .pdf, .pptx, .jpeg, .jpg, .png, .bmp, .tif, .gif, .zip
 - **Max. file size upload** = 30 MB

When completing the return:

1. Click **Edit** for the **File Upload for Sensitive Data**.

The screenshot shows a table header 'Board papers' with a status 'Status: No Data'. Below it, there is a row for 'File Upload for Sensitive Data' with a folder icon, a star, and an information icon. Below that, another row shows a document icon, a star, and the text 'File Upload for Sensitive Data', with an 'Edit' link on the right.

2. Upload the required files.

Form View

File Upload for Sensitive Data

This return allows an entity to submit files that contain sensitive information.

Entity Name
ABN

Ample Entity Ltd
98765432198

The form displays a section titled 'Upload Document' with five rows. Each row contains a file upload icon (a blue bar with a lock and a trash icon), a 'Choose File' button, and a 'Choose File' button. Below the rows, there is a note: 'N.B. Acceptable file types are: .xlsx, .csv, .docx, .pdf, .pptx, .jpeg, .jpg, .png, .bmp, .tif, .gif, .zip'. At the bottom right, there are two buttons: 'Save As Draft' and 'Validate & Save'.

6.11.5 Superannuation ad hoc returns

The following ad hoc returns can be used by Superannuation entities to submit applicable data, outside the standard reporting cycle. Please refer to the Superannuation industry page on the [APRA](#) website for information related to reporting obligations.

Form set name	Description
Fees and Costs	Captures fees and costs that are to be charged to a member or would otherwise affect member balances.
RSE Structure	Collects information on the structure of each registrable superannuation entity's (RSE) business operations.
RSE Structure Preview	<p>Displays read-only information currently stored in your organisation's profile.</p> <p>Tables in APRA Connect have a 200 row limit when viewed through the on-screen return. The RSE Structure Preview return allows you to view RSE Structure data exceeding 200 rows for your fund.</p> <p>It also enables you to upload new products in bulk. Download and save the RSE Preview, edit the data in Excel, and then upload the file into the RSE Structure return by selecting 'upload file'.</p>

Form set name	Description
Insurance Arrangements	Must be reported as at the end of the reporting period, or, where an RSE licensee is submitting ad hoc information, as at the date of the change.

Resubmission v. ad hoc returns

If erroneous or incomplete (e.g. as a result of [auto-submit](#) on upload) data is submitted for one of the above returns as part of the standard reporting cycle, a [request for resubmission](#) is required.

The use of the ad hoc returns is required when data changes need to be reported outside the reporting cycle. For example, the RSE Structure is for the reporting period 1/7/20-30/6/21, if something changed on the 15/7/21 the information needs to be reported using the ad hoc return with an effective date of 15/7/21.

A request for resubmission is required for all other returns that contain erroneous or incomplete data.

Chapter 7 - Submitting Returns

The process of submitting a return is the same for regulatory, corporate, and ad hoc returns. Each form in a return must be completed and validated prior to submission.

Only people with the required permissions can manually submit returns. Refer to [User roles](#).

Returns are automatically submitted when a file that passes all validation is uploaded by any user. Refer to [Uploading return data](#).

7.1 Manually submitting a return

To submit a return manually:

1. Navigate to the [Manage Returns](#) page.
2. Open the required return.
3. Click **Validate & Submit**.

Actions

Note: This option is only available if a return is complete and validated. The return is validated for submission.

4. If no errors are identified, either:
 - the **Submit Return** page is displayed.

Click **Submit** to finalise the submission.

Submit Return

Your return has been validated and can now be submitted. Please click the "Submit" button to confirm that you wish to submit this return.

Once submitted, a return can no longer be edited, but can still be viewed in submission history. If an error is subsequently discovered you can apply to resubmit the return using the "Request Resubmission" functionality.

Please note final submission can take up to 2 minutes depending on the complexity of the return.

- if [offline processing](#) is turned on for the return, the **Submit Return** confirmation box is displayed.

Click **Yes** to finalise the submission.

5. If validation issues are encountered, either:
- the Submission Validation Issues page is displayed. Click **Back** to return to the View Return page and correct the errors/warnings.
 - if [offline processing](#) is turned on for the return, errors/warnings will be indicated when you return to the View Return page. To view errors and correct warnings, click **Validate & Submit**.

Refer to [Data Validation](#) for further information on correcting errors and warnings.

When the data has been received by APRA, a confirmation email is sent to the Regulatory Reporting Administrator(s) for your organisation. The confirmation email includes the reference number for your return submission, which should be used in any correspondence regarding that specific return.

7.2 Offline processing

Validation and submission of large returns is performed in the background, to minimise the time the system is unavailable during the validation process, and to avoid system timeouts. You are free to continue using APRA Connect while processing takes place.

Registered RRA's will receive confirmation e-mail once a return has successfully been processed.

7.3 Submission history

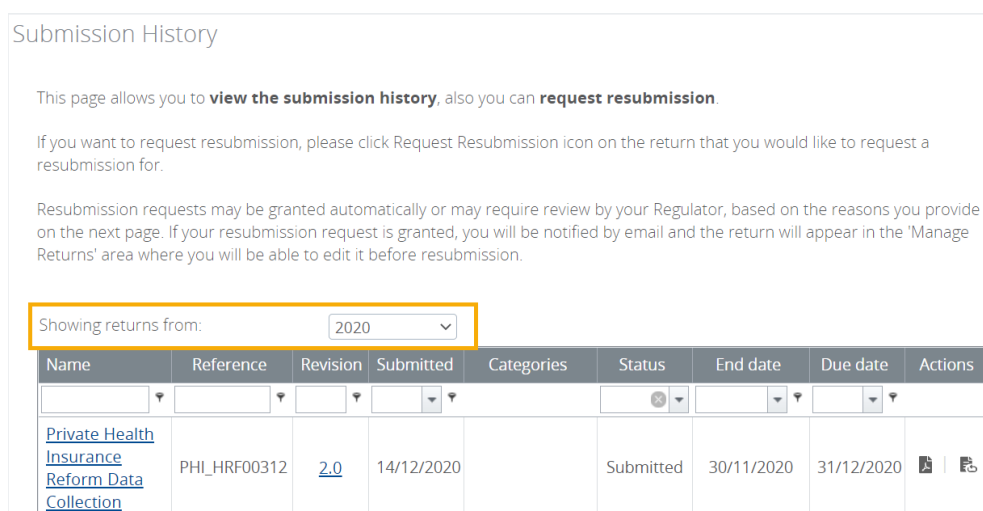

On the Submission History page, you can access the previously submitted returns, for which you have permissions to view.

To view submission history:

1. On the Manage Returns page click **View Submissions**.

2. From the **Show returns** from list, select the year for which to see submitted returns. Note that is the calendar year to which the return applies, not the year it was submitted.

Previously submitted returns are displayed according to your permissions.

3. You can use the filter in applicable columns to refine the list and search for a return.

- Click a return name to open the View Return page for the most recently submitted version.

From here you can view the form data, upload history if available, and request a resubmission if required.

- Click the Revision number to view a list of submitted versions.

View Audit Log

7.4 Requesting a resubmission

If changes need to be made to data after a regulatory return's submission, resubmission must be requested through APRA Connect.

Resubmission requests will be automatically approved:

- if they are requested prior to the return due date, and will be available for editing and resubmission from the [Manage Returns](#) page.
- up to 15 days after the reporting due date so that you can amend data if it is identified as being erroneous from an APRA query.²

If a request does not meet these criteria, you will be contacted by APRA.

Note: Corporate profile returns should not be resubmitted, except when withdrawing a 'pending' Accountable Person registration. Refer to [Updating corporate profile information](#) for further details.

To request a resubmission:

1. On the [Submission History page](#), either:
 - click the **Resubmission** icon in the Action column of the required return; or

² This requirement has currently been disabled by APRA.

Submission History

This page allows you to **view the submission history**, also you can **request resubmission**.

If you want to request resubmission, please click Request Resubmission icon on the return that you would like to request a resubmission for.

Resubmission requests may be granted automatically or may require review by your Regulator, based on the reasons you provide on the next page. If your resubmission request is granted, you will be notified by email and the return will appear in the 'Manage Returns' area where you will be able to edit it before resubmission.

Showing returns from: 2020

Please specify changes since previous revision: *

If necessary, please attach an accompanying file detailing the changes: *

Choose File

Send Request Cancel

3. In the first text field enter any additional information related to the reason for resubmission.
4. Complete the second text field with a summary of the changes in the return since the previous submission.
5. If applicable, attach a file with supporting information.
6. Click **Send Request**.

7. Confirm the request.

Request Resubmission

Are you sure you would like to request resubmission of "Private Health Insurance Reform Data Collection"?

Confirm Cancel

If the return meets the criteria for [automatic approval](#), it is removed from the submission history and is returned to the [draft returns](#) list.

Note: Confirmation notifications for resubmitted returns will contain the same receipt number. Notifications with the same receipt number can be differentiated by their timestamp.

7.5 Responding to APRA queries post submission

Note: This functionality is not available in the [test environment](#) as the precise queries that trigger the errors will not work on non-production data.

APRA Connect enables you to communicate with APRA regarding queries about submitted data that may arise from APRA, as well as the Reserve Bank of Australia (RBA) and Australian Bureau of Statistics (ABS).

Through APRA Connect you can respond directly to individual queries, or export queries to allow input from other business units, which can then be uploaded in bulk.

7.5.1 Identifying post submission queries

After you submit a return, APRA sends out any queries on the data which have been raised. Regulatory Reporting Administrators receive email notification that there are queries requiring a response.

To access the queries:

1. Navigate to the [Submission History page](#).

The return with queries is identified by the comment icon  containing a numeric value indicating the number of queries.

Return Name	Reference
BOCA ContactPerson	CP02832

2. Click the icon to view the queries on the View Return Comments page.

Queries can also be accessed when you open the return, using **View Comments** under Actions.

7.5.2 Responding to queries

Individual queries

To respond to an individual query:

1. On the View Comments page, click **Reply** on the required query.

APRA Connect Supervision Centre User 12/03/2021 11:06 (last updated at 13:54)

This item (PL13032 - Gross incurred claims by geographic region - Public and product liability - New South Wales) has moved by \$51,803k between the September-2018 quarter (\$2,297k) and the December-2018 quarter (\$54,100k). Can you please confirm and comment on the factors contributing to this movement? If the data is found to be incorrect, please resubmit the return and notify of the revisions made. Please note that the movement is based on discrete quarter values.

Due: 19/03/2021 (Return Revision: 1.0)

Reply

Supporting Documents

No file chosen

2. In the displayed field enter your explanatory text.
3. If support documents are required, click **Browse** to locate and attach the file.
4. When complete, click **Add** to save the comments and make them visible to APRA.

You can:

- add additional comments by repeating the above process
- edit or delete a response using the icons in the comment field.

Exporting and importing queries

If query responses require input from additional teams, you can export queries, and the existing response text, to an Excel file in a prescribed format. Once complete you can upload this back into APRA Connect.

Alex Principle , Ample co.
