

Reporting Form Instruction Guide

Financial Accountability Regime (FAR) – Register Accountable Person

Introduction

This form is approved by APRA and ASIC (the Regulators) as the application form to register a person as an accountable person in respect of an accountable entity or a significant related entity (SRE) of the accountable entity for the purposes of section 41 of the *Financial Accountability Regime Act 2023* (the Act). The form applies to all accountable entities as defined in the Act.

The required information must be submitted in APRA Connect by completing the '**Financial Accountability Regime - Register Accountable Person**' form.

The form is accompanied by these instructions to assist accountable entities in completing the required information.

Declarations

When submitting this form for the purposes of applying to the Regulators to register a person as an accountable person, the accountable entity must, in accordance with paragraph 41(2)(c) of the Act, provide a signed declaration that the accountable entity is satisfied the person is suitable to be an accountable person. The Regulators' expectation is that this declaration would be signed by a Director of the entity submitting the form, or a person delegated to sign on the Board's behalf.

For accountable entities subject to the enhanced notification obligations set out in subsection 31(2) of the Act, the accountable entity must also provide an accountability statement for the person as part of this form. Accountability statements must include a declaration by the accountable person that the content of the statement is accurate, and the individual understands their accountability obligations under section 21 of the Act. The Regulators expect this declaration to be signed and dated.

Registration process

The Regulators must register a person as an accountable person if the application meets the requirements of subsection 41(2) of the Act, and the accountable entity provides any further information requested by the Regulators under subsection 41(3) of the Act, unless the accountable entity withdraws the application before the day of registration.

Period for registration

The period for registration is the later of:

- 21 calendar days after the day the application is submitted (if the application meets the requirements of subsection 41(2) of the Act); or
- if the Regulators request further information from the accountable entity in relation to the application pursuant to subsection 41(3) of the Act, 21 calendar days after the day the further information is submitted.

For clarity, the date the application is submitted is considered day zero. The 21-day period for registration commences the following day. If the Regulators request further information under subsection 41(3) of the Act, the original registration period stops and a new 21-day period for registration commences from the day after the additional information is submitted.

Resubmission

The Regulators may allow an accountable entity to request a resubmission of this registration form to reflect any amendments or updates. In such circumstances, an amended application would be accepted during the period for registration, at the Regulators' discretion, pursuant to the following process, which is consistent with the Regulators' expectation that accountable entities will submit complete, accurate and correct forms:

1. **Submit resubmission request** – An accountable entity submits a resubmission request for the registration form in APRA Connect and specifies the changes it intends to make in the free-text field. An email notification will be sent to the entity, generally within two business days, advising the form is available to amend.
2. **Resubmit amended form within 14 days** – If an accountable entity resubmits the amended form within 14 calendar days from the day after the initial submission date, and the revised application complies with the requirements set out in section 41 of the Act, with no further information required, the Regulators will process the application within the original 21-day period.
3. **Resubmit amended form after 14 days** – If an accountable entity has not resubmitted an amended form within 14 calendar days after the initial submission date, the Regulators will issue a request for information under subsection 41(3) of the Act. A new period for registration of 21 calendar days will commence from the day after the additional information is submitted.
4. **Resubmission request after 14 days** – If an accountable entity submits a resubmission request more than 14 calendar days after the initial submission date, the Regulators will similarly issue a request for information under subsection 41(3) of the Act (in the same manner as point 3).
5. **Resubmission request for the purpose of withdrawing the application** – These requests are not subject to consideration of whether the request is before or after 14 days.

If an application has already been assessed by the Regulators and the accountable person has been registered under section 41 of the Act, amendments or updates can only be made by submitting a **'Financial Accountability Regime - Notification of Change to an Accountable Person'** form.

Specific instructions

An accountable entity must submit this form to apply to the Regulators to register a person as an accountable person under section 41 of the Act.

1 Submission lodgement status (you must select the relevant checkbox below)

During the pre-commencement period, entities will need to select the appropriate checkbox to clearly distinguish between:

- a) Submitting a draft to the Regulators as part of the pre-commencement review process; or
- b) Formally submitting the application under the FAR.

1.1 Submitting as a draft (note this does not constitute an application under section 41 of the FAR Act)

This checkbox can only be selected during the relevant pre-commencement period for each industry. When submitting a draft form, the declaration section and information pertaining to an accountable person's director identification number (if relevant) will not be available for completion.

1.2 Submitting as an application for registration under section 41 of the FAR Act

Entities will only be able to select this checkbox 30 days prior to the industry commencement date of the FAR, and for all applications for registration thereafter.

2 Accountable Person

2.1 Commencement date

Report the date the person started or is proposed to start occupying the role as an accountable person. Unless an exception applies (see 2.2 below), the commencement date should be at least 21 calendar days from the day after the submission date, in accordance with the period for registration under subsection 41(5) of the Act.

2.2 If the Commencement date is in the past, please explain why by selecting one of the dropdown options:

- Ss. 24(2) of the FAR Act 2023 – person was initially filling a temporary or unforeseen vacancy
- Ss. 24(3) of the FAR Act 2023 – person was appointed as a director at a general meeting
- Ss. 24(4) of the FAR Act 2023 – entity is newly licensed under the relevant act
- Other

This field is only visible and mandatory if the Commencement date entered is in the past.

Subsections 24(2)-(4) of the Act allow a person to step into the role as an accountable person for a period of time before the accountable entity is required to ensure that the person is registered as an accountable person.

2.3 Rationale if Commencement date is within 21 days after the day of submission

At the point of submission, this field becomes visible and mandatory if the proposed Commencement date entered is within 21 calendar days. The following message appears: *'Commencement date should not be within 21 days from the day after the submission. Regulators will expedite a registration application in exceptional circumstances only.'*

Sufficient justification and information need to be entered to explain the rationale for a proposed Commencement date of less than 21 days. It is at the Regulators' discretion to process an application in a shorter timeframe than the specified legislative period for registration.

The accountable entity will be advised if the application will not be expedited.

2.4 Status

The Status defaults to 'Registration' and it is not editable. After the initial submission, if the accountable entity seeks to withdraw the application it must select the checkbox in 2.5.

2.5 Select checkbox to withdraw this submission

Following the relevant FAR industry commencement dates, to withdraw a submitted application during the registration period, the accountable entity must first request a resubmission. If a resubmission request has been granted by the Regulators, the accountable entity must 'Select checkbox to withdraw this submission' to complete the withdrawal, prior to resubmitting the form.

If an application has been assessed by the Regulators and the accountable person is registered under section 41 of the Act, an accountable entity may seek to cancel the accountable person's registration by submitting the **'Financial Accountability Regime – Notification of Change to an Accountable Person'** form if the person has not commenced in the role of an accountable person.

4.1 Responsibilities information

4.1.1 Accountable entity general and prescribed responsibilities

Select from the drop-down list whether the individual is an accountable person under subsections 10(1), 10(5) and/or 10(6) of the Act (general responsibilities), or has or holds any of the responsibilities or positions prescribed by any rules made by the Minister under section 104 of the Act for the purposes of subsections 10(2) – (4) of the Act (please refer to the *Financial Accountability Regime (Minister) Rules 2024* for the list of prescribed responsibilities/positions).

Where the accountable person holds multiple general or prescribed responsibilities and positions, add a separate record in the table for each responsibility/position. Note that an accountable person may hold both general responsibilities and one or more prescribed responsibilities/positions.

4.1.2 Accountable entity general and prescribed responsibilities start date

Where two or more accountable persons have the same responsibility as identified in item 4.1.3, the description of the responsibility should be the same for each accountable person.

4.2 Key functions information

4.2.1 Key functions

Report the ADI Key Function(s), if any, that is applicable to the accountable person. Refer to the *Financial Accountability Regime Act (Information for register) Regulator Rules 2024* (Regulator rules) for the list of ADI Key Functions available for selection from the drop-down list.

Accountable entities can assign an ADI Key Function to more than one accountable person if this reflects actual practices or different roles in relation to that function.

As set out in the Regulator rules, information regarding each ADI Key Function is only required to be provided and will only be included in the register of accountable persons where:

- (a) an ADI or an authorised NOHC of an ADI undertakes that particular ADI Key Function;
and
- (b) a person who is determined to be an accountable person in accordance with the Act has actual or effective senior executive responsibility for management or control of the whole of, or a significant or substantial part or aspect of, that particular ADI Key Function.

The Regulator rules do not require a relevant accountable entity to undertake each ADI Key Function or to assign each ADI Key Function to an accountable person.

Where an accountable person:

- has multiple ADI Key Functions assigned to them, add a separate record in the table for each ADI Key Function; or
- does not have an ADI Key Function assigned to them, select 'No key function held' from the drop-down list.

4.2.2 Key functions start date

Report the start date from which the accountable person undertook or from which it is proposed that the accountable person will undertake the particular ADI Key Function, or the start date of the period for which 'No key function held'.

Please add a start date for each ADI Key Function assigned to the accountable person.

4.2.3 Description

It is optional for the accountable entity to provide further details of the accountable person's responsibilities in relation to an ADI Key Function. If the ADI Key Function is assigned to more than one accountable person, the Regulators suggest that the accountable entity describes actual practices and the different roles held by each accountable person as it relates to the particular ADI Key Function.

4.3 Significant related entities – general responsibilities

4.3.1 Does, or will, the person, have a senior executive responsibility for management or control of the operations of a significant related entity under subpara. 10(1)(b)(ii) or 10(6)(b)(ii) of the Act (general responsibility)?

Otherwise, report 'No' and go to section 4.4.

4.3.2 Significant related entity

Select the SRE(s) from the drop-down list to which the person holds general responsibilities under subsections 10(1) and/or 10(6) of the Act. The list of SREs available for selection is pre-populated based on the accountable entity's submission of the '**Financial Accountability Regime - Entity Profile**' form. Until the entity receives an email notification from the Regulators that the '**Financial Accountability Regime - Entity Profile**' form has been processed, the SRE will not be available for selection from the dropdown list. Processing may take up to four calendar days.

Where the person holds general responsibilities in relation to multiple SREs, add a separate record in the table and complete items 4.3.2 to 4.3.6 for each SRE.

4.3.3 Accountable person start date against the significant related entity

Report the start date when the person undertakes general responsibilities of the SRE for the first time.

4.3.4 Significant related entity general responsibilities subpara. 10(1)(b)(ii) or 10(6)(b)(ii) of the FAR Act

Select from the drop-down options whether the accountable person holds a position in the:

- (i) accountable entity or
- (ii) SRE,

and has actual or effective senior executive responsibility for a significant or substantial part or aspect of the operations of the accountable entity's relevant group.

4.3.5 Accountable person start date against the significant related entity general responsibilities subpara. 10(1)(b)(ii) or 10(6)(b)(ii) of the FAR Act

Report the start date the accountable person undertakes the general responsibilities in the SRE under subparagraph 10(1)(b)(ii) or 10(6)(b)(ii) of the Act.

4.3.6 Description

A description of the person's position and responsibilities must be provided.

4.4 Withdrawals

4.4.1 Have all responsibilities been redistributed?

This field serves as a prompt and is only visible and mandatory if 'Select checkbox to withdraw this submission' is selected in item 2.5. Select:

- 'Yes' if any responsibilities and/or any ADI Key Functions applicable to the accountable person have or will be redistributed to other accountable person(s), and provide a description in 4.4.2;
- Otherwise, select 'No' and provide an explanation in 4.4.2.

4.4.2 Description of redistribution of responsibilities

This field is only visible and mandatory if 'Select checkbox to withdraw this submission' is selected in item 2.5. Provide a description of the:

Specify whether a new 'Financial Accountability Regime – Register Accountable Person' form or a 'Financial Accountability Regime – Notification of Change to an Accountable Person' form has, or will be, submitted; or
