*Note:* the Direct to APRA application software (also known as D2A) may be obtained from APRA.

## **Reporting periods and due dates**

- ~~7.~~ Subject to paragraph ~~89~~ of this Reporting Standard, an ADI to which this Reporting Standard applies must provide ~~APRA with the information required by this Reporting Standard in respect of the following reporting periods:~~

~~(a) in the case of a ADI that is a Monetary Aggregates Reporter:~~

~~(i) each calendar month (including the month during which the ADI became a Monetary Aggregates Reporter); and~~

- ~~8.7.~~ for each quarter based on the financial year, (within the meaning of the Corporations Act 2001, of the ADI (including the quarter during which the ADI became a Monetary Aggregates Reporter); and) of the ADI.

~~(b) in the case of a relevant ADI that it not a Monetary Aggregates Reporter, each quarter based on the financial year, within the meaning of the Corporations Act 2001, of the ADI.~~

- ~~8.~~ The information required by this Reporting Standard must be provided to APRA within 28 calendar days after the end of the reporting period to which the information relates.

9. APRA may, by notice in writing, change the reporting periods, or specified reporting periods, for a particular ADI, to require it to provide the information required by this Reporting Standard more frequently, or less frequently, having regard to:

(a) the particular circumstances of the ADI;

(b) the extent to which the information is required for the purposes of ~~the~~ prudential supervision of the ADI; and

~~10.~~ The information required by this Reporting Standard must be provided to APRA by the following times:

~~(a)(c)~~ in the case of quarterly information referred to in sub-subparagraphs 7 and subparagraph 7—15 business days after the end of the reporting period to which the information relates.

~~11.10.~~ APRA may grant an ADI an extension of a due date in writing, in which case the new due date for the provision of the information will be the date as specified in the notice of extension.

*Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, an ADI is nonetheless required to submit the information required no later than the due date.*

## Quality control

~~12.11.~~ All information provided by an ADI under this Reporting Standard must be the product of systems, processes and controls that have been reviewed and tested by the external auditor of the ADI as set out in *Prudential Standard APS 310 Audit and Related Matters*. Relevant standards and guidance statements issued by the Auditing and Assurance Standards Board provide information on the scope and nature of the review and testing required from external auditors. This review and testing must be done on an annual basis or more frequently if required by the external auditor necessary to enable the external auditor to form an opinion on the accuracy and reliability of the information provided by an ADI under this Reporting Standard.

~~13.12.~~ ~~The~~All information provided by an ADI under this Reporting Standard must ~~also~~ be subject to systems, processes and controls developed by the ADI for the internal review and authorisation of that information. These systems, processes and controls are to assure the completeness and reliability of the information provided.

## Authorisation

~~14.13.~~ ~~If~~When an officer of an ADI submits information under this Reporting Standard using the 'Direct to APRA' D2A application, or other method notified by APRA, it will be necessary for the officer to digitally sign the relevant information using a digital certificate acceptable to APRA.

## Minor alterations to forms and instructions

~~15.14.~~ APRA may make minor variations to:

(a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or

- (b) the instructions to a form, to clarify their application to the form without changing any substantive requirement in the form or instructions.

~~16.15.~~ If APRA makes such a variation, it must notify in writing each ADI that is required to report under this Reporting Standard.

### Transition

16. An ADI must report under the old Reporting Standard in respect of a transitional reporting period. For these purposes:

- (a) that ended on or before 31 December 2018; and

Note: For the avoidance of doubt, if an ADI was required to report under an old Reporting Standard, and the reporting documents were due before the date of revocation of the old Reporting Standard, the ADI is still required to provide the overdue reporting documents in accordance with the old Reporting Standard.

This form relates to the operations of an authorised deposit-taking institution (ADI). If an ADI has subsidiaries or interest in joint venture operations, the ADI must also complete *ARF 322.0 Statement of Financial Position (Consolidated)* (ARF 322.0).

~~If the ADI has material business, operations or dealings outside of Australia or with non-residents, then the institution will be required to complete *ARF 320.0 Statement of Financial Position (Domestic Books)* (ARF 320.0) and *ARF 321.0 Statement of Financial Position (Offshore Operations)*, instead of this form.~~

#### General directions and notes

##### Reporting entity

##### Licensed ADI

##### Securitisation deconsolidation principle

~~Except as otherwise specified in these instructions, the following applies:~~

~~2.1.~~ Where an ADI (or a member of its Level 2 consolidated group) participates in a securitisation that meets APRA's operational requirements for regulatory capital relief under *Prudential Standard APS 120 Securitisation (APS 120)*:

- (a) special purpose vehicles (SPVs) holding securitised assets may be treated as non-consolidated independent third parties for regulatory reporting purposes, irrespective of whether the SPVs (or their assets) are consolidated for accounting purposes; ~~and~~
- (b) the assets, liabilities, revenues and expenses of the relevant SPVs may be excluded from the ADI's reported amounts in APRA's regulatory reporting returns; ~~and~~
- (c) ~~the underlying exposures (i.e. the pool) under such a securitisation may be excluded from the calculation of the ADI's regulatory capital (refer to APS 120). However, the ADI must still hold regulatory capital for the securitisation exposures<sup>+</sup> that it retains or acquires and such exposures are to be reported in *Reporting Form ARF 120.1 Securitisation – Regulatory Capital*. The risk weighted assets (RWA)~~

<sup>+</sup> ~~Securitisation exposures are defined in accordance with APS 120.~~

~~relating to such securitisation exposures must also be reported in Reporting Form ARF 110.0.1 Capital Adequacy (Level 1) and Reporting Form ARF 110.0.2 Capital Adequacy (Level 2).~~

~~4.2. Where an ADI (or a member of its Level 2 consolidated group) participates in a securitisation that does not meet APRA's operational requirements for regulatory capital relief under APS 120, or the ADI undertakes a funding-only securitisation or synthetic securitisation, such ~~exposures~~assets are to be reported as on-balance sheet ~~assets~~ in APRA's regulatory reporting returns. ~~In addition, these exposures must also be reported as a part of the ADI's total securitised assets within Reporting Form ARF 120.2 Securitisation Supplementary Items.~~~~

## Reporting period and timeframe for lodgement

~~If the Credit Union or Building Society is a Monetary Aggregates Reporter (broadly, it has total assets greater than or equal to \$50 million), this~~The form is to be completed as at the last day of each quarter based on the financial year (within the reporting month, meaning of the Corporations Act 2001). ~~The completed form must be submitted to APRA within 10 business days after the end of the relevant reporting month. In addition, this form is also to be completed as at the last day of the stated reporting quarter (i.e. September, December, March and June). The completed form must be submitted to APRA within 15 business days after the end of the relevant reporting quarter.~~

~~If the Credit Union or Building Society or Cairns Penny Savings & Loans Limited or PPF is not a Monetary Aggregates Reporter, this form is to be completed as at the last day of the stated reporting quarter (i.e. September, December, March and June). The completed form must be submitted to APRA within 15 business~~28 calendar days after the end of the relevant reporting quarter.

## Unit of measurement

~~Credit Unions, Building Societies, Cairns Penny Savings & Loans Limited and PPFs are asked to complete the form~~The form is to be completed in whole Australian dollars (no decimal place).

Amounts denominated in foreign currency are to be converted to AUD in accordance with *AASB 121 The Effects of Changes in Foreign Exchange Rates* (AASB 121).

The general requirements of AASB 121 for translation are:

1. foreign currency monetary items outstanding at the reporting date must be translated at the spot rate at the reporting date;<sup>2</sup>

<sup>2</sup> Monetary items are defined to mean units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Spot rate means the exchange rate for immediate delivery.

2. foreign currency non-monetary items that are measured at historical cost in a foreign currency must be translated using the exchange rate at the date of the transaction;<sup>3</sup>
3. foreign currency non-monetary items that are measured at fair value will be translated at the exchange rate at the date when fair value was determined.

Transactions arising under foreign currency derivative contracts at the reporting date must be prepared in accordance with *AASB ~~1399~~ Financial Instruments: ~~Recognition and Measurement~~* (AASB ~~1399~~), *AASB 7 Financial Instruments: Disclosures* (AASB 7) and *AASB 132 Financial Instruments: ~~Disclosure and Presentation~~* (AASB 132). However, those foreign currency derivatives that are not within the scope of AASB ~~1399~~ (e.g. some foreign currency derivatives that are embedded in other contracts) remain within the scope of AASB 121.

For APRA purposes equity items must be translated using the foreign currency exchange rate at the date of investment or acquisition. Post-acquisition changes in equity are required to be translated on the date of the movement.

As foreign currency derivatives are measured at fair value, the currency derivative contracts are translated at the spot rate at the reporting date.

Exchange differences should be recognised in profit and loss in the period which they arise. For foreign currency derivatives, the exchange differences would be recognised immediately in profit and loss if the hedging instrument is a fair value hedge. For derivatives used in a cash flow hedge, the exchange differences should be recognised directly in equity.

The ineffective portion of the exchange differences in all hedges would be recognised in profit and loss; and

4. ~~translation of in relation to~~ financial reports of foreign operations:

A foreign operation is defined in AASB 121 ~~as meaning to mean~~ an entity that is a subsidiary, associate, joint venture or branch of a reporting entity, the activities of which are based or conducted in a country or currency other than those of the reporting entity.

- Exchange differences relating to foreign currency monetary items that form part of the net investment of an entity in a foreign operation, must be recognised as a separate component of equity.
- Translation of financial reports should otherwise follow the requirements in AASB 121.

## Netting

Unless otherwise specifically stated, institutions are allowed to take advantage of netting agreements in relation to disclosure of data items in this form. Institutions are to comply with

<sup>3</sup> Examples of non-monetary items include amounts prepaid for goods and services (e.g. prepaid rent); goodwill; intangible assets; physical assets; and provisions that are to be settled by the delivery of a non-monetary asset.
