

Manager, General Insurance Statistics
Australian Prudential Regulation Authority

Thank you for the quick response.

Based on our understanding of your response, we do not believe the entities of which I am Agent in Australia for, would agree the proposals. In the case of the ICRC for example, they would agree disclosure of the ICRC as part of the PRA but would not agree to disclosure of the supporting information required to be disclosed in the D2A supporting that number.

Confidentiality of detailed data should be respected.

Thank you.

Ross
