

DATA COLLECTION SOLUTION

Technical Working Group Membership 2018

TWG background and purpose

APRA has established the Technical Working Group (TWG) as a forum to support APRA's Data Collection Solution (DCS) project that will deliver a replacement solution for the Direct to APRA (D2A) tool through which reporting entities meet their reporting obligations by submitting data to APRA.

Membership appointment

APRA has selected members for the TWG based on personal merit, and recommendations made by industry bodies.

Member representation

Members are representative of stakeholders across APRA-regulated industries and be appointed in a personal capacity for the duration of the DCS project.

Additional SIRG attendees

The group may invite observers to attend meetings.

Members will be able to nominate one delegate to attend meetings of the TWG in their absence.
