Reporting Standard SRS 605.0

RSE Structure

Objective of this reporting standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to the structure of a registrable superannuation entity (RSE), defined benefit RSE or Pooled Superannuation Trust (PST).

It includes *Reporting Form SRF 605.0 RSE Structure* (SRF 605.0) and associated specific instructions.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected under this Reporting Standard is used by APRA for the purposes of prudential supervision and publication. It may also be used by the Australian Securities and Investments Commission.

Application

3. This Reporting Standard applies to each registrable superannuation entity (RSE) licensee (RSE licensee) in respect of each RSE, defined benefit RSE and pooled superannuation trust (PST) within its business operations[1].

[1] For the purposes of this Reporting Standard, an RSE licensee's 'business operations' includes all activities it conducts as an RSE licensee (including the activities of each RSE of which it is the licensee), and all other activities of the RSE licensee to the extent that they are relevant to, or may impact on, its activities as an RSE licensee. For the avoidance of doubt, if the RSE licensee is trustee of more than one RSE, defined benefit RSE or PST, the RSE licensee must separately provide the information required by this Reporting Standard for each RSE, or defined benefit RSE within its business operations. An RSE licensee that does not have any RSEs or defined benefit RSEs within its business operations is not required to provide information under this Reporting Standard.

Commencement

4. This Reporting Standard commences at the start of the day after the day it is registered on the Federal Register of Legislation.

Reporting periods

5. The RSE licensee must provide the information required by this Reporting Standard for the reporting periods, by the due dates, set out in the table below.

Ad-hoc information required

~~6. Where there is a change in circumstances after 30 June 2025 and before 1 April 2026, that results in information reported, whether under this Reporting Standard or the old reporting standard (as defined below), relating to superannuation products, investment menus, investment options, fee and cost arrangements or defined benefit sub-funds in respect of an RSE, defined benefit RSE or PST no longer being accurate, the RSE licensee must provide:~~

~~(a) updated information required by the old reporting standard if the change in circumstances relates to information reported on SRF 605.0 Tables 1 – 4, within 28 calendar days after the end of the calendar quarter ending on 30 September 2025, 31 December 2025 and 31 March 2026; or~~

~~(b) updated information required by this Reporting Standard:~~

~~(i) if the change in circumstances occurs on or before 30 September 2025 and the change in circumstances relates to information reported on SRF 605.0 Table 5 or SRF 605.1 Table 1, by 15 December 2025; or~~

~~(ii) if the change in circumstances occurs after 30 September 2025 and the change in circumstances relates to information reported on SRF 605.0 Table 5 or SRF 605.1 Table 1, within 28 calendar days after the end of the calendar quarter in which the change occurred for the periods ending 31 December 2025 and 31 March 2026.~~

~~7.~~6. Where there is a change in circumstances on or after 1 April 2026 that results in information reported, whether under this Reporting Standard or the ~~old~~ Reporting Standard revoked by the determination that makes this Reporting Standard ~~(as defined below)~~, relating to superannuation products, investment menus, investment options, fee and cost arrangements or defined benefit sub-funds in respect of an RSE, defined benefit RSE or PST no longer being accurate, the RSE licensee must provide updated information required by this Reporting Standard within 28 calendar days after the end of the calendar quarter in which the change occurred for the periods ending 30 September, 31 December and 31 March.

Quarterly attestation required

~~8.~~7. An RSE licensee must provide APRA an attestation that the information it last provided APRA under this Reporting Standard is still accurate as at the end of every calendar

quarter (i.e. the periods ending 30 September, 31 December, 31 March and 30 June each year) or that the RSE licensee has, or will be, providing updated information to APRA in accordance with paragraph ~~6 and~~ 7.

~~9.~~8. An RSE licensee to which this Reporting Standard applies must provide information required under paragraph 7~~8~~, within 28 days after the end of each calendar quarter.

Notices

~~10.~~9. If, having regard to the particular circumstances of an RSE, defined benefit RSE or PST, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 5, APRA may, by notice in writing, change the reporting periods for the particular RSE, defined benefit RSE or PST.

~~11.~~10. Where APRA has changed the reporting periods under paragraph 9~~10~~, the RSE licensee must provide the relevant information within the time specified by the notice in writing.

~~12.~~11. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more RSEs, defined benefit RSEs or PSTs within its business operations, in which case the new due date for the provision of the information will be the due date on the specified notice of extension.

Note: For the avoidance of doubt, APRA's expectation is that if the due date falls on a day other than a usual business day, an RSE licensee will submit the information required no later than the due date.

Form and method of submission

~~13.~~12. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a method notified by APRA prior to submission.

Quality control

~~14.~~13. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE, defined benefit RSE or PST to which the information relates[2]. This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:

(a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and

(b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

[2] Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

~~15.~~14. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies, procedures and controls for the authorisation of information submitted to APRA is in place.

Authorisation

~~16.~~15. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.

~~17.~~16. If the information required by this Reporting Standard is provided by an agent who submits the information on the RSE licensee's behalf, the RSE licensee must:

(a) obtain from the agent a copy of the completed form with the information provided to APRA; and

(b) retain the completed copy.

~~18.~~17. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, or on behalf of, the RSE licensee must be authorised by either:

(a) the Chief Executive Officer of the RSE licensee; or

(b) the Chief Financial Officer of the RSE licensee.

Minor alterations to forms and instructions

~~19.~~18. APRA may make minor variations to:

(a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or

(b) the instructions to a form, to clarify their application to the form,

without changing any substantive requirement in the form or instructions.

~~20.~~19. If APRA makes such a variation, it must notify each RSE licensee that is required to report under this Reporting Standard.

Transition

~~21.~~ An RSE licensee to which this Reporting Standard applies must report under the ~~old~~ Reporting Standard revoked by the determination that makes this Reporting Standard in respect of any reporting periods ending before ~~in respect of a transitional reporting period. For these purposes:~~

~~***22. old reporting standard*** means the reporting standard revoked in the determination making this Reporting Standard; and~~

~~23. ***transitional reporting period*** means a reporting period under the old reporting standard:~~

~~24. that ended on or before 30 June 2025~~1 January 2027~~; and~~

~~25. in relation to which the RSE licensee was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.~~

~~26.~~

~~27.~~20. ~~Note: For the avoidance of doubt, if an RSE licensee was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting standard, the RSE licensee is still required to provide any overdue reporting documents in accordance with the old reporting standard.~~

RSE Structure

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 605.0 RSE Structure* (SRF 605.0). This form collects information on the structure of each RSE's business operations.

General directions and notes

Reporting level

SRF 605.0 must be completed for each RSE licensee in respect of each registrable superannuation entity (RSE), defined benefit RSE and pooled superannuation trust (PST), as relevant, within its business operations.

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and units of measurement

Amounts in SRF 605.0 are to be reported as percentages or whole numbers. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 605.0 must be reported as at the end of the reporting period, or, if an RSE licensee is submitting ad-hoc information, as at the date of the change.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

Reporting Form SRF 605.1

Investment Option Transaction And Pricing Attributes

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 605.1 Investment Option Transaction And Pricing Attributes* (SRF 605.1). This form collects information on the structure of each RSE's business operations as it relates to specific attributes of investment options offered to members.

General directions and notes

Reporting level

SRF 605.1 must be completed for each RSE licensee in respect of each registrable superannuation entity (RSE), defined benefit RSE and pooled superannuation trust (PST), as relevant, within its business operations.

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and units of measurement

Amounts in SRF 605.1 are to be reported as percentages or whole numbers. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 605.1 must be reported as at the end of the reporting period, or, if an RSE licensee is submitting ad-hoc information, as at the date of the change.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).
